

Office of the City Manager

12

CONSENT CALENDAR

January 18, 2022

To: Honorable Mayor and Members of the City Council
From: Dee Williams-Ridley, City Manager
Submitted by: Don Ellison, Interim Director of Human Resources
Subject: Classification and Salary: Establish Single Function Paramedic

RECOMMENDATION

Adopt a Resolution to establish the represented classification of Single Function Paramedic with a monthly salary range of \$5,200 to \$7,800.

FISCAL IMPACTS OF RECOMMENDATION

The total cost for each position is \$179,992.80 and will be funded by the General Fund and the Paramedic Tax (existing fire department budget).

CURRENT SITUATION AND ITS EFFECTS

The Personnel Board discussed and voted to send this classification to the City Council for approval at its December 20, 2021 meeting (Vote: Ayes: Bartlow, Dixon, Lacey, Wenk Noes: None Abstains: None Absent: Gilbert, Karpinski, Wilson).

Establishing this classification advancing our goal to be a customer-focused organization that provides excellent, timely, easily-accessible service and information to the community and attract and retain a talented and diverse City government workforce.

BACKGROUND

With the passage of Measure FF in November of 2020 and some complimentary internal reconfigurations, the Fire Department (Department) will be redesigning the way it provides emergency medical service to the community. This will include providing a higher level of retrospective call audits and employee education, and replacing the firefighter/paramedics that currently staff the City's ambulances with single function EMTs and Paramedics. The Department will also be deploying additional ambulances, some staffed at the basic life support (EMT) level with EMTs, which are more appropriate resource for low acuity calls.

Establishing this new EMS classification, decoupled from the firefighter rank, will allow the organization to provide entry level jobs that are attainable to local youth graduating from the highly successful Berkeley Safety Training & Education Pathway (B-STEP) program at Berkeley Unified School District, other similar vocational programs and other qualified candidates. The Single Function Paramedic classification won't just provide a

better, more cost-effective service to the community, but will also serve as the missing link to our local recruitment pipeline.

It is anticipated that Limited Term EMTs will be strong applicants for the position of Single Function Paramedics if they choose to apply. Single Function Paramedics will provide advanced life support services on the city's ambulances and other EMS functions as determined by the Department. Operationally, establishing this classification will allow the Department to triage calls in the dispatch center and send the most appropriate transport resource to the call based on the patient's acuity.

ENVIRONMENTAL SUSTAINABILITY AND CLIMATE IMPACTS

There are no identifiable environmental effects or opportunities associated with the subject of this report.

RATIONALE FOR RECOMMENDATION

It has been the policy of the City to create the necessary classification and salary schedule to accommodate new duties and responsibilities, reflect programmatic changes, maintain competitive salaries and, when applicable, comply with regulatory requirements.

ALTERNATIVE ACTIONS CONSIDERED

None.
