Through Berkeley Ready, City departments coordinate a suite of programs to build disaster resilience in the whole Berkeley community. These programs support personal preparedness, community connections, and government efforts that will help Berkeley respond to and recover from our next earthquake, fire, or other disaster.

Berkeley Ready programs include:

- Community Emergency Response Teams
- Community Resilience Centers
- Disaster Supply Caches
- Any many more!

In an Emergency

These sources may have emergency instructions and information like evacuation and shelter locations:

Radio

- 1610 AM (Emergency information only)
- KPFB – 89.3 FM
- KQED – 88.5 FM
- KCBS – 740 AM
- KSOL – 98.9 FM (Spanish)

Television
All stations will broadcast messages sent by Alameda County through the Emergency Alert System (EAS). Local news networks may also carry specific information and instructions from authorities.

Online at www.CityofBerkeley.info
Information on the City of Berkeley website will be available in accessible formats.

Friends and Neighbors
Share emergency information and instructions with the people around you. Verify information from a credible source.

These systems are not guaranteed to work in an emergency. Be ready to use many different sources to find information.

Berkeley Ready
City of Berkeley
Be connected. Be prepared. Be Berkeley.

Emergency Alerting

Office of Emergency Services

Get ready now to receive information in an emergency

Alameda County Alert (AC Alert) System

In the event of an immediate threat to life, health, or safety, government officials may use AC Alert to send information and instructions to affected community members.

AC Alert can send:
- Voice alerts to phones
- SMS text messages
- Emails
- TTY/TDD messages

Listed AT&T "land lines" are automatically included in AC Alert. Community members must sign up to receive voice or text alerts on cell phones, TTY/TDD phones, VoIP phones, unlisted phones or through email.

To sign up your phone number or e-mail address, visit:
www.CityofBerkeley.info/ACAlert
or contact the Office of Emergency Services.

In an emergency, officials may use many different tools to communicate information and instructions to the community.

Sign up and prepare to use these systems now, before an emergency occurs!

National Oceanic and Atmospheric Administration (NOAA) Weather Radio

NOAA Weather Radio (NWR) broadcasts emergency weather alerts and other hazard information. During an emergency, National Weather Service forecasters send a special tone to activate weather radios. NWR cannot be heard on a simple AM/FM radio receiver.

Learn more at:
www.nws.noaa.gov/nwr

WarnME

WarnME is UC Berkeley's alert and warning service for UC Berkeley students, staff, and faculty. WarnME is NOT the same as the AC Alert system. In order to receive WarnME alerts, you must have a "@berkeley.edu" email address.

Learn more at:
https://warnme.berkeley.edu

Earthquake Notification Service

The United States Geological Survey's Earthquake Notification Service sends e-mail notifications to subscribers when an earthquake happens in their area.

To sign up, visit:
https://earthquake.usgs.gov/ens
