

Office of the City Manager

CONSENT CALENDAR
February 23, 2021

To: Honorable Mayor and Members of the City Council

From: Dee Williams-Ridley, City Manager

Submitted by: Savita Chaudhary, Director, Information Technology

Subject: Contract No. 32100060 Amendment: RevolutionCyber, LLC for Professional Services

RECOMMENDATION

Adopt a Resolution authorizing the City Manager to amend Contract No 32100060 with RevolutionCyber, LLC for additional professional services to develop the policies and procedures for the City's Data Safety program, for an amount not to exceed \$77,050.00 and a total contract value not to exceed \$102,025.00 from November 13, 2020 through June 30, 2022.

FISCAL IMPACTS OF RECOMMENDATION

One time funding for this project is available in the Department of Information Technology's Fiscal Year (FY) 2021 General Fund allocation as itemized below.

\$77,050	FY 2021: Professional Services FY 2021 Budget Code: 011-35-363-382-0000-000-472-612990- (General Fund, IT Department, Professional Services)
\$77,050	Total FY 2021 Professional Services

CURRENT SITUATION AND ITS EFFECTS

The City's existing cyber-resilience plan prioritizes and organizes cyber security projects, objectives, and requirements needed within the next five years to improve the City's cyber-resilience posture. The cyber resiliency plan categorizes all projects into five focus areas, which include Data Transparency, Data Privacy and Data Security, Program Functional Design, Policy and Rationale, Monitoring, Response & Mitigation, and Training and Culture. In December 2020, Council approved funding that allowed the City to move forward on six high-priority projects, including launching a Data Safety Program.

The launch of the Data Safety Program will focus on implementing technologies that impact the City's information safety, and is also a Strategic Plan Priority Project, advancing the City's goal to:

- Provide state-of-the-art, well-maintained infrastructure, amenities, and facilities.
- Create a resilient, safe, connected, and prepared city.

This contract amendment extends the initial contract work begun in preparation for the Data Safety Program. RevolutionCyber, LLC (RC) will draft the policy and procedures that will serve as the foundation of the Data Safety Program. The policy that RC will develop will ensure that all City information/data remains sufficiently protected with respect to its sensitivity, privacy, criticality, and context. RC will develop this policy in the form of an Administrative Regulation (AR) and it will apply to all City departments and staff. The AR will address the creation, labeling, use, sharing, governance, and disposition of information/data created and managed by the City.

BACKGROUND

In May 2019, the City engaged with a consultant to complete an "as-is" assessment of the City's cyber resiliency. The consultant developed a cyber-resilience plan that recommended and prioritized cyber security projects, objectives, and requirements for the next five years. In May 2020, the consultant also recommended a roadmap to the City with large-scale and coordinated projects that would create and mature the City's cyber-resilience capabilities and controls in the most efficient and effective manner.

In December 2020, staff presented to Council the assessment of the threats currently facing the City's information and computer-networks, the recommended roadmap, and prioritized six of the projects, setting their completion date to be on or by June 30, 2021. Establishing and launching a Data Safety Program was one of the six projects selected for FY 21.

ENVIRONMENTAL SUSTAINABILITY

RC will conduct their work remotely thus reducing greenhouse gas emissions from travel to and from City facilities.

RATIONALE FOR RECOMMENDATION

RC currently works with the City's senior leaders and their designees to assess the risk to the information in the structure of the City and its departments and to design and develop the standards for the Data Safety Program, which addresses those risks and the departments' data access needs.

Staff recommends continuing to work with RC to establish the policies and procedures for the Data Safety Program. RC has the outside perspective that provides industry best practices and experience in working with other local municipalities to help establish a framework that the City will use in the near future.

ALTERNATIVE ACTIONS CONSIDERED

Staff considered developing and launching the Data Safety Program internally, however staff determined that the work would be completed more timely by having RC build on the work that they have previously completed for the City. Hiring another consultant would involve additional time and expenses to become familiar with the City's data distribution, departments, controls and technologies.
