CURRENT SITUATION AND ITS EFFECTS

The departments of Planning and Public Works currently use the Accela Civic Engagement Platform as its permitting system and need to enhance online features that make it easier for customers to apply for a permit, schedule inspections, and pay for permits online. These online enhancements have become particularly critical in order to keep permitting services accessible and efficient for the community during the COVID 19 pandemic and consistent with the City’s strategic goal *“to be a customer-focused organization that provides excellent, timely and easily accessible service to the community.”*

TruePoint Solutions provide resources that are focused on configuration and scripting work that is needed by the City to effectively implement these new features and provide support. TruePoint will also work on additional issues as requested and prioritized by the City and provide additional enhancements and improvements.

BACKGROUND

Established in 2004, TruePoint Solutions, LLC provides design, implementation, and support services to public sector technology solutions. In 2005, TruePoint Solutions became an Accela-Certified implementation partner.

In 2015, the City contracted with TruePoint Solutions for report writing and additional scripting and configuration of Accela’s Building Permit system. In 2016, the City Council approved an amendment with TruePoint Solutions for the management of the Private Sewer Laterals module for the Department of Public Works. In 2018, the City Council approved an amendment with TruePoint Solutions to provide professional assistance for the work on system issues as requested and prioritized by the City and suggest additional enhancements/improvements. In 2019, the City Council approved an amendment with Truepoint Solutions for additional configuration and troubleshooting assistance.

ENVIRONMENTAL SUSTAINABILITY

The City will help reduce carbon emissions by allowing most, if not all, permitting processes to be performed online thereby reducing traffic into the City.

RATIONALE FOR RECOMMENDATION

TruePoint Solutions is an Accela-Certified implementation partner. TruePoint performs specialized process analysis, configuration, and scripting to support the City’s implementation of Accela’s Permitting system. As a result, TruePoint has in-depth

knowledge of City business processes and data architecture that would take another vendor years to acquire.

ALTERNATIVE ACTIONS CONSIDERED

Staff considered completing these projects and enhancements without professional services however, doing so would lead to an inefficient allocation of staff resources and significantly extend implementation timelines.
