INFORMATION CALENDAR
JUNE 28, 2022

To: Honorable Mayor and Members of the City Council
From: Dee Williams-Ridley, City Manager
Submitted by: Henry Oyekanmi, Director, Finance Department
Subject: FY 2022 Third Quarter Investment Report: Ended March 31, 2022

SUMMARY

The City's investment policy requires that a quarterly investment report be submitted to the City Council on the status of the investment portfolio. The report includes all investments managed by the City of Berkeley and provides information on the types, values (par, book, and market), term, and yield of each security.

- The return on pooled investments for the quarter ended March 31, 2022 was .99%, 70 basis points more than the .29% earned by the State Local Agency Investment Fund (State LAIF), which is the benchmark for investment performance used by the City. The return on pooled investments of .99% for the quarter ended March 31, 2022 was 11 basis points less than the rate of 1.10% earned in the quarter ended December 31, 2021.
- The average return on all Retiree Medical Trust Fund investments was 4.14% for the quarter ended March 31, 2022.

CURRENT SITUATION AND ITS EFFECTS

Attached is a summary of quarterly reports for the fiscal year 2022 Third Quarter ending March 31, 2022 representing the status of the City's investment portfolio. The report includes all investments managed by the City of Berkeley and provides information on the values (par, book, and market), term, and yield of each security.

Summary information by type of security and detailed information on each security is provided on Exhibit 2-A. An evaluation of portfolio performance for this accounting period compared to the previous three accounting periods is also included in Attachment 1.

A. Portfolio Results

As a result of the differences in the investment policies of different cities, including responsible investing policies, maturity restrictions, investment restrictions, etc., it was difficult for the City of Berkeley to come up with a reasonable performance measure for pooled cash investments. In order to provide some measure of the relative performance of the City's investment returns, many years ago the City established the State Local Agency Investment Fund (LAIF) as the performance measure to be reported in the quarterly investment reports, since many local governments invested significant portions of their investment portfolios in LAIF.

LAIF was intended to be a reference point to compare the City's investment performance against, rather than a true performance measure, since most cities typically earn a yield higher than LAIF in normal interest rate environments, and because LAIF's average maturity of its investments is generally shorter than most cities. As a result, past City Councilmembers requested that information about the rates earned by other California cities be included in the quarterly investment reports for comparison purposes, despite the differences in the investment policies of the various cities.

1. Liquidity of Portfolio:

The average investment in the pooled portfolio matures in 1,352 days as of March 31, 2022. This is 52 days more than the 1,300 maturity days as of December 31, 2021.

2. Comparison of Results to Performance Measures – Pooled investments: Quarter Ended March 31, 2022

The City's yield on investments for the quarter ended March 31, 2022 was .99%, a decrease of 11 basis points (.11%) from the 1.10% earned during the quarter ended December 31, 2021. The average yield on a 90-day Treasury bill at the end of the quarter ended March 31, 2022 was .482%, an increase of 45 basis points (.45%) from the .030% at the end of the previous quarter.

As summarized in Table 1, staff's overall results were above the performance measure for the quarter. Staff's performance was above the performance measure in January by approximately 67 basis points (+.67%); over the performance measure in February by approximately 74 basis points (+.74%); and, was over the performance measure in March by approximately 62 basis points (+.62%). The performance measure for the return on investments is compared to the rate of return of the State LAIF.

Table 1

For Quarter Ending March 31, 2022			
Period	City	State LAIF	Difference
Jan-21	.90%	.23%	0.67%
Feb-21	1.02%	.28%	0.74%
Mar-21	.99%	.37%	0.62%
Jan1-Mar 31	.99%	.29%	0.70%

3. Investment Results-Retiree Health Insurance Funds:

Average interest rates earned on the retiree health insurance trust funds for the quarter ended March 31, 2022 compared to the quarter ended December 31 2021, were as follows:

Table 2

EARNED INTEREST RATES		
For Quarter Ended 3/31/2022 Compared To 12/31/2021		
Trust Fund	2nd Qtr 12/31/21	3rd Qtr 3/31/22
Retiree Medical Trust Fund (Misc Employees)	4.421%	4.834%
Fire Retiree Medical Trust Fund	3.671%	3.962%
Police Retiree Medical Trust Fund	3.327%	3.614%

The rates earned on these plans are expected to be higher in the future, as staff plans to use the investment authority granted by Council to purchase Bond and Stock Mutual Funds or Index Funds.

Details related to retiree health trust fund investments are in Attachment 3, Exhibits 3-A, 3-B, and 3-C of this report.

B. Discussion of Interest Rate Environment and Outlook

In its May 4, 2022 statement, the Federal Open Market Committee indicated that although economic activity edged down in the first quarter, household spending and business fixed investment remained strong, job gains have been robust in recent months, and the unemployment rate has declined substantially. Inflation remains elevated, reflecting

supply and demand imbalances related to the pandemic, higher energy prices, and broader price pressures.

The invasion of Ukraine by Russia is causing tremendous human and economic hardship. The implications for the U.S. economy are highly uncertain. The invasion and related events are creating additional upward pressure on inflation and are likely to weigh on economic activity. In addition, COVID-related lockdowns in China are likely to exacerbate supply chain disruptions. The Committee is highly attentive to inflation risks.

Yield Trend

The Committee seeks to achieve maximum employment and inflation at the rate of 2 percent over the longer run. With appropriate firming in the stance of monetary policy, the Committee expects inflation to return to its 2 percent objective and the labor market to remain strong. In support of these goals, the Committee decided to raise the target range for the federal funds rate to 3/4 to 1 percent and anticipates that ongoing increases in the target range will be appropriate. In addition, the Committee decided to begin reducing its holdings of Treasury securities and agency debt and mortgage-backed securities on June 1st. In assessing the appropriate stance of monetary policy, the Committee will continue to monitor the implications of incoming information for the economic outlook. The Committee would be prepared to adjust the stance of monetary policy as appropriate if risks emerge that could impede the attainment of the Committee's goals.

The Federal Reserve raised the Federal Funds rate .25% and .50% at its March and May 2022 meetings, respectively; In addition, an April 4-8,2022 Reuters poll of more than 100 economists expects the Fed to raise the Federal Funds rate .50% at its June 2022 meeting, and .25% at the rest of its meetings in calendar 2022. This would bring the Federal Funds rate to 2.00% to 2.25% by the end of 2022.

Change in Strategy

Prior to the Fed's change in monetary policy starting March 16, 2022, staff's basic strategy consisted of not purchasing any Agency or Medium-Term corporate note securities with a maturity beyond three years, unless the securities were step-up securities (i.e., securities whose interest rates increased periodically, if they were not called). After the Fed's change in monetary policy, the City's investment strategy changed to extending the investment maturities of securities purchased beyond three years for attractive interest rates, regardless of the call features. This should result in an increase in interest income during the remainder of FY 2022, and into FY 2023.

Also, the City's earned rate is expected to be above the City's benchmark (State LAIF) and the City's return is expected to be comparable to rates earned by most other cities in California. A sample of rates earned by Northern and Southern California cities is reflected in table 3 below (previously only Northern California cities were included):

Table 3

Other California Cities Earned Interest Rates	
For the Quarter Ending March 31, 2022	
City	Rates Earned
Palo Alto	1.61%
Burbank	1.36%
Los Angeles	1.23%
Berkeley	.99%
Sacramento	.88%
San Jose	.88%
Hayward	.88%
Torrance	.85%
San Francisco	.58%
San Diego	.55%
Oakland	N/A

BACKGROUND

- Pooled Investments

Short-term cash is invested primarily in government sponsored enterprises (referred to as Federal Agency) notes and medium-term corporate notes for periods of one to five years. Additional cash is invested in a money market fund or overnight securities to meet the liquidity needs of the City.

In some cases, the City may have investments with a current market value that is greater or less than the recorded cost. These changes in market value are due to fluctuations in the market and have no effect on yield, as the City does not intend to sell securities prior to maturity.

- Retiree Health Trust Fund Investments

The City agreed to provide retiree Health insurance coverage for fire, police and miscellaneous employees under certain terms and conditions. An actuarial study commissioned by the City many years ago determined that, in addition to City Contributions, an average rate of return of 7% on miscellaneous employees trust fund assets invested must be achieved to fund the retiree health benefit at the desired 70% level. Primarily as a result of the Federal Reserve Board's decision to keep short-term rates near zero for the last 14 years, the average rate currently earned is significantly below that 7% level. City Finance Department staff manages these investment portfolios.

ENVIRONMENTAL SUSTAINABILITY AND CLIMATE IMPACTS

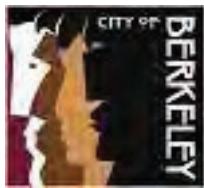

There are no identifiable environmental effects or opportunities associated with the subject of this report.
