### D. Review Responsibilities

1. Who takes responsibility for design review or Certificates of Appropriateness?

## Certified Local Government Program -- 2020-2021 Annual Report

(Reporting period is from October 1, 2020 through September 30, 2021)

All projects subject to design review go the commission.

Some projects are reviewed at the staff level without commission review. What is the threshold between staff-only review and full-commission review? The Commission reviews Structural Alteration Permits submitted for work on Landmark properties requiring City permits. Projects that adhere to the Landmarks Preservation Ordinance Section 3.24.220 for Permit application exceptions (i.e. ordinary maintenance and repairs) are reviewed administratively through building permit plan check.

### 2. California Environmental Quality Act

- What is the role of historic preservation staff and commission in *providing input* to CEQA documents prepared for or by the local government? Projects involving demolition require Use Permits with Public Hearings and staff reviews for the potential to adversely affect historical resources under CEQA, requiring DPR forms and/or standards analyses as appropriate. The Zoning Officer requires a referral to the LPC for the demolition of non-residential buildings and structures forty or more years of age. This requirement also provides an opportunity for the Commission to have input in the CEQA historical resource determination. Staff reviews technical reports for CEQA exemptions on residential projects for buildings over 40 years old.

What is the role of the staff and commission in *reviewing* CEQA documents for projects that are proposed within the jurisdiction of the local government? If an Environmental Impact Report (EIR) identifies potential impacts to historical resources, the LPC is alerted of the preparation and scoping meeting(s). If the City is the lead agency, staff reviews the administrative Draft EIR (DEIR). The DEIR is taken to the LPC for review and comment during circulation. The LPC comments are forwarded to the Zoning Officer for inclusion in the Response to Comments document. The Zoning Adjustments Board is the decision making body on the Final EIR (FEIR) certification, but the LPC considers and adopts any FEIR certification required for Structural Alteration Permit decisions.

### 3. Section 106 of the National Historic Preservation Act

- What is the role of the staff and commission in *providing input* to Section 106 documents prepared for or by; the local government? Our preservation staff coordinates with the City's Department of Health Housing & Community Development Services (HHCS) staff to present environmental assessments for housing development projects receiving federal funds to the LPC. Preservation and HHCS staff solidify the Commission's comments about historic resources in the area of potential effect (APE), in accordance with Section 106 of the National Preservation Act.

## Certified Local Government Program -- 2020-2021 Annual Report

(Reporting period is from October 1, 2020 through September 30, 2021)

- What is the role of the staff and commission in *reviewing* Section 106 documents for projects that are proposed within the jurisdiction of the local government? Staff reviews and forwards to the Commission Section 106 documents for projects that are proposed within the jurisdiction of the local government. Under such projects, the LPC opens a public consultation meeting so that the Commission may provide comments to the City on potential project effects on historic resources. The Commission consultation focus is on whether: 1) The APE is of the proper size and scope; 2) There are any historic properties present; 3) The undertaking would have adverse or beneficial effects (or both) on the property, and what those specific effects would be. Comments and/or findings are forwarded to the City Council for comment to the Lead Agency and SHPO.

### II. Establish an Adequate and Qualified Historic Preservation Review Commission by State or Local Legislation.

**Subject:** HOPKINS CORRIDOR PROJECT-Please distribute this for the 3/30 meeting

**WARNING:** This is not a City of Berkeley email. Do not click links or attachments unless you trust the sender and know the content is safe.

You are being presented with the beginning of a project that is dangerous for our city. Hopkins is a specified evacuation corridor. Hopkins and The Arlington are in high fire areas.

See page 19: <https://cwppberkeley.hub.arcgis.com/documents/c00c8413aa6f44e082fcef77e60322ee/explore>

Under state laws passed in January of last year, loads on these corridors under different scenarios must be figured and planned for. Berkeley is required to do this study and put it into its Local Hazard Mitigation Plan and it is scheduled to begin in July of this year. It has not yet been done.

It is dangerous and irresponsible to do street reconfigurations without the data from this study, which must have citizen commentary and input according to FEMA.

Complete Streets design changes have tradeoffs and these, in a hillside city are very serious. Berkeley has tens of thousands of citizens who require cars to get around, whether they live in the hills or have a handicap. Tens of thousands of citizens will need to evacuate from hillside areas and, if the fire department is to be believed, from flat land areas also. Indeed, we have been told that Berkeley may burn down to the freeway. And let's not forget Kensington, which will flood Arlington in this scenario. Since a detailed look at this problem has not been done, it is too soon to approve structural changes. The two-way cycle track proposed that this feeds into is on the south side of the street. The north side, which would see thousands evacuating, would be narrowed to one lane. It is extreme negligence on the part of the city to plan such a change.

<https://www.youtube.com/watch?v=qaA6EviAQrs>

A further note is that cycling danger in Berkeley seems to have been overestimated as has the 'safety' of bike lanes. Alameda County and Copenhagen, with fewer residents, both have 3 cycling deaths a year. Berkeley has one every few years and mostly on streets on southside. Lowering this would need a more detailed look at things like not wearing helmets as contributors. Even Danish studies of bicycle infrastructure show increased accidents from cycle lanes.

<https://www.vehicularcyclist.com/copenhagen1.pdf>

<https://www.renehersecycles.com/wp-content/uploads/2013/08/bicycle20tracks20and20lanes.pdf>

We need to plan our city according to the data and for the most urgent needs.

PLEASE VOTE AGAINST THIS FOOLISH AND ALREADY OUTDATED PLAN.

Thank you!  
Candace Hyde-Wang

WARNING: This is not a City of Berkeley email. Do not click links or attachments unless you trust the sender and know the content is safe.

Dear Landmarks Commissioners,

Today you are in the extraordinary position of making key decisions regarding a project that will be celebrated around the world and a spiritual focal point of Berkeley for generations to come.

At the heart of the city, the Turtle Island Monument will represent the very best that Berkeley has to offer the world. Sustainable and constructive life ways in harmony with the environment that Indigenous people have always tried to live by: the values that we all need to survive and thrive. That is the core message that that the Turtle Island Monument of Berkeley will be offering the world.

I am certain that you all understand what is at stake here, and you will all rise to the occasion and move the Turtle Island Monument forward to completion.

We are all very fortunate to be able to play a role in this great creative project, and we can proudly tell our great-grandchildren that through the Turtle Island Monument we contributed an important part in helping to move this troubled world back onto a better path to a constructive and visionary future.

Thank you for all your hard work.
