Police Review Commission

January 28, 2021

To: City Council Public Safety Policy Committee  
From: Kitty Calavita, <sup>xc hm KSL</sup> Chair, Police Review Commission  
Re: Draft Ordinance on Police Acquisition & Use of Controlled Equipment – Annual Reporting section

This is to advise that the Police Review Commission revisited the section of the recommended ordinance regulating Police Acquisition and Use of Controlled Equipment (“Controlled Equipment Ordinance”) pertaining to the annual reporting requirement. The debate centered on whether the annual report on Controlled Equipment should include or exclude equipment included in a Use of Force report.

The portion of Section 2.100.050 in question (using Councilmember Harrison’s draft, submitted Dec. 2, 2020) reads:

(A) Annual Report on Controlled Equipment

(1) The Police Department shall submit a report on Controlled Equipment to the Police Review Commission within one year of approval, and annually thereafter for as long as the Controlled Equipment is available for use, ~~for any Controlled Equipment not included in a Use of Force report.~~ The report shall be provided no later than March 15<sup>th</sup> of each year, unless the Police Review Commission advises the Department that an alternate date is preferred. The Department shall also make each annual report publicly available on its website for as long as the Controlled Equipment is available for use. The annual report shall, at a minimum, include the following information for the immediately preceding calendar year:

- (a) Production descriptions for Controlled Equipment and inventory numbers of each product in the Police Department’s possession.
- (b) A summary of how Controlled Equipment was used. For the purposes of annual reports, “use” of equipment shall refer to deployments in which equipment is publicly displayed **or visible**<sup>1</sup>, or is deployed in an operation or critical response, not to transfers of location or placement of equipment inside Department vehicles.

Police Review Commission  
Draft Ordinance on Police Acquisition & Use of Controlled Equipment  
January 28, 2021  
p. 2 of 2

The phrase stricken and in red, “for any Controlled Equipment not included in a Use of Force Report,” was inserted by the Police Review Commission Subcommittee that first reviewed the ordinance and then approved by the full PRC. It appeared in the version of the ordinance sent to you for your November 2, 2020 meeting. Councilmember Harrison subsequently proposed to strike the language.

At its January 27, 2021 meeting, the PRC renewed its discussion about inserting that phrase, and heard from Chief Greenwood about his concerns over deleting it. The debate revolved around duplication of reporting and the administrative burden of reporting, versus the transparency afforded by such reporting, as well as the actual extent of duplication. As a procedural matter, concerns were raised about revisiting a decision that had already been agreed to, but there was consensus that the significance of the exclusionary language had not been well understood.

Ultimately, the PRC voted to reverse its earlier decision, with the proviso that language appearing later in the section be revised, to address the Police Department’s concern about the burden of having to keep track of and report the mere visibility of Controlled Equipment to the public. This change is intended to ease the tracking and reporting requirement while still fulfilling the ordinance’s goal of transparency of police activities.

On the motion to remove the exclusionary clause, “for any Controlled Equipment not included in a Use of Force Report,” with the understanding that the Commission will proceed to discuss wording in Section 2.100.050(A)(1)(b), the vote was unanimous: Moved/Second (Calavita/Perezvelez): Ayes – Allamby, Calavita, Chang, Leftwich, Mikiten, Mizell, Moore, Perezvelez, Ramsey.

On the motion to remove, in Section 2.100.050(A)(1)(b), the words “or visible,” the vote was also unanimous: Moved/Second (Perezvelez/Mikiten): Ayes – Allamby, Calavita, Chang, Leftwich, Mikiten, Mizell, Moore, Perezvelez, Ramsey.

Subject: Adopt an Ordinance Adding Chapter 2.~~64100.170~~ to the Berkeley Municipal Code Regulating Police Acquisition and Use of Controlled Equipment

RECOMMENDATION

1. Refer draft Ordinance to the Police Review Commission for further consideration and policy development and submit recommendations to the Public Safety Committee and author within 60 days; and
2. Adopt an Ordinance Adding Chapter 2.~~64.170~~100 to the Berkeley Municipal Code to Regulate Police Acquisition and Use of Controlled Equipment.

BACKGROUND

The acquisition and use of certain police equipment and weapons pose grave threats to civil liberties and public health and safety. It is in the public interest that acquisition of any police equipment with the potential to impose physical or phycological harm to community members should be thoroughly reviewed by the Police Review Commission and Council; illegally enforceable safeguards, including transparency, oversight, and accountability measures, must be in place to protect the public's welfare, safety, civil rights, and civil liberties before certain categories of equipment are funded, acquired, or used.

The Council already relies on the Police Review Commission to review certain Police equipment acquisitions and uses. In addition, the Council has imposed limits directly, for example: limiting further acquisition of military material from the Department of Defense 1033 Program, acquisitions of armored vehicles and surveillance equipment, the use of pepper spray in crowd control situations, and the use of tear gas. However, the City currently lacks a comprehensive framework for reviewing and regulating the acquisition of a broad spectrum of potentially problematic equipment, including use of such equipment by other departments during mutual aid events.

Adopt an Ordinance Adding Chapter 2.64.170100 to the Berkeley Municipal Code Regulating Police Acquisition and Use of Controlled Equipment

The Oakland Police Commission is currently in the process of recommending to the Oakland City Council a new policy inspired by Berkeley's Surveillance Technology Ordinance and California Assembly Bill AB3131, a prior attempt to regulate military equipment statewide, to thoroughly consider the proposed acquisition and use of potentially problematic police equipment *before* community members can be harmed.

The list of Controlled Equipment defined in the ordinance is in part inspired by equipment definitions President Obama's Executive Order 13688 and California Assembly Bill AB3131. The list of equipment is not exhaustive and may be added to or subtracted from as needed.

The primary concepts of the proposed Oakland and Berkeley Ordinances are as follows:

1. Controlled Equipment Use Policies and Controlled Equipment Impact Reports must be reviewed and adopted before the use of Controlled Equipment may be authorized.
2. Requires the Police Department to submit Controlled Equipment Use Policies and Controlled Equipment Impact Reports to the Police Commission for review and recommendation.
3. Requires the Police Commission to review submissions at a public hearing and determine whether such submissions warrant a recommendation to Council for adoption or rejection.
4. Requires the City Council to ratify or reverse the Police Commission's recommendations following the Commission's review of Controlled Equipment Use Policies.
5. Requires the Police Department to submit an annual report describing the use of authorized Controlled Equipment during the year prior.
6. Requires the Police Commission to review the annual Controlled Equipment report, determine whether covered equipment has complied with the standards for approval, and recommend renewal or modification of Use Policies, or the revocation of authorization for use.
7. Requires the City Council to ratify or reverse the Police Commission's recommendations following the Commission's review of the Controlled Equipment annual report.

Adopt an Ordinance Adding Chapter 2.64.170100 to the Berkeley Municipal Code Regulating Police Acquisition and Use of Controlled Equipment

The Berkeley Surveillance Ordinance model of thoroughly considering the impact of acquiring and using certain technology has served the public well since adoption in early 2018. A similar regime is appropriate for consideration of police equipment.

Similar to the Surveillance Ordinance, the item provides the Police Department with a year from the date of passage to submit Controlled Equipment Use Policies and Controlled Equipment Impact Statements for approval. This process will assist the public, Council and Commission in better understanding the scope of controlled equipment inventory, use policies and impact.

The ordinance includes enforcement remedies for alleged violations of the ordinance, including injunctive relief, declaratory relief, writ of mandate in the Superior Court of the State of California to enforce this Ordinance and attorneys' fees. Individuals subject to the use of Controlled Equipment in violation of this Ordinance may institute proceedings in the Superior Court of the State of California against the City of Berkeley and shall be entitled to recover actual damages (but not less than liquidated damages of one thousand dollars (\$1,000.00) or one hundred dollars (\$100.00) per day for each day of violation, whichever is greater). Violators of the ordinance may result in consequences that may include retraining, suspension, or termination, subject to due process requirements and applicable City policies.

The intent of this item is to provide the Police Review Commission with sufficient time to review the draft ordinance and provide input and feedback to the Public Safety Committee and author before proceeding to the full Council.

(d) The use of Controlled Equipment is the most cost-effective option among all available alternatives.

(2) If the submitted Controlled Equipment Impact Report identifies a risk of potential adverse effects on the public's welfare, safety, civil rights, or civil liberties, a recommendation for approval for the funding, acquisition, or use of Controlled Equipment by the Police Review Commission pursuant to this Ordinance shall not be deemed an acquiescence to those effects, but instead an acknowledgment of the risk of those effects and the need to avoid them proactively.

(1) The Police Department shall have one year from the date of passage of this Ordinance to submit Controlled Equipment Use Policies and Controlled Equipment Impact Statements for approval pursuant to this Ordinance if the Department wishes to continue the use of Controlled Equipment acquired prior to the passage of this Ordinance. The Department shall cease the use of Controlled Equipment acquired prior to the date of passage of this ordinance if, after one year, no approval, pursuant to the requirements of this Ordinance, has been granted.

(2) In order to ensure that the review of previously-acquired Controlled Equipment is appropriately prioritized, the Police Department shall provide a prioritized ranking of Controlled Equipment possessed and/or used by the City, and the Police Review Commission shall consider this ranking in determining order in which previously-acquired Controlled Equipment that is prioritized for review.

(H) City Council Approval Process

(1) After the Police Review Commission Notification and Review requirements have been met, City Staff seeking City Council approval shall schedule for City Council consideration the proposed Controlled Equipment Impact Report and proposed

Controlled Equipment Use Policy, and include Police Review Commission recommendations, at least fifteen (15) days prior to a public meeting.

The Council already relies on the Police Review Commission to review certain Police equipment acquisitions and uses. In addition, the Council has imposed limits directly, for example: limiting further acquisition of material from the Department of Defense 1033 Program, acquisitions of armored vehicles, the use of pepper spray in crowd control situations, and the use of tear gas. However, the City currently lacks a comprehensive framework for reviewing and regulating the acquisition of a broad spectrum of potentially problematic equipment, including use of such equipment by other departments during mutual aid events.

Adopt an Ordinance Adding Chapter 2.64.170 to the Berkeley Municipal Code Regulating Police Acquisition and Use of Controlled Equipment

The Oakland Police Commission is currently in the process of recommending to the Oakland City Council a new policy inspired by Berkeley's Surveillance Technology Ordinance and California Assembly Bill AB3131, a prior attempt to regulate military equipment statewide, to thoroughly consider the proposed acquisition and use of potentially problematic police equipment *before* community members can be harmed.

The primary concepts of the proposed Oakland and Berkeley Ordinances are as follows:

1. Controlled Equipment Use Policies and Controlled Equipment Impact Reports must be reviewed and adopted before the use of Controlled Equipment may be authorized.
2. Requires the Police Department to submit Controlled Equipment Use Policies and Controlled Equipment Impact Reports to the Police Commission for review and recommendation.
3. Requires the Police Commission to review submissions at a public hearing and determine whether such submissions warrant a recommendation to Council for adoption or rejection.
4. Requires the City Council to ratify or reverse the Police Commission's recommendations following the Commission's review of Controlled Equipment Use Policies.
5. Requires the Police Department to submit an annual report describing the use of authorized Controlled Equipment during the year prior.
6. Requires the Police Commission to review the annual Controlled Equipment report, determine whether covered equipment has complied with the standards for approval, and recommend renewal or modification of Use Policies, or the revocation of authorization for use.
7. Requires the City Council to ratify or reverse the Police Commission's recommendations following the Commission's review of the Controlled Equipment annual report.

The intent of this item is to provide the Police Review Commission with sufficient time to review the draft ordinance and provide input and feedback to the Public Safety Committee and author before proceeding to the full Council.
