Submitted by: Commission on Disability

Subject: Chapter 19.50, Elevators-Buildings with Ten or More Units and Two or More Stories

RECOMMENDATION

Clarifying standards and reducing the change of a court misunderstanding the intent of the code.

1. Require that alternative housing be accessible and that “ accessible “ is defined by the California Building Code.
2. Clarifying what standard for “reasonable arrangements”, and “ reasonable steps” in section 19.50.040(C). Using the elevator industry standard is more protective of tenants, because it is a higher standard.
3. Clarify that both immediate repair and alternative housing are required, not one or the other, section 19.50.060(A). revision adding “ and/or”.
4. Removing the 10-Day limit on providing alternative housing, where the elevator cannot be repaired immediately.
5. Raise the maximum cost of alternative housing to meet modern economic realities.
6. Include a food voucher to meet the modern economic realities.

SUMMARY *[This section is included only if report exceeds three pages.]*

FISCAL IMPACTS OF RECOMMENDATION

CURRENT SITUATION AND ITS EFFECTS

The intent of Clarifying standards is to protect persons with disabilities and seniors who are unable to use the stairs from being displaced or having to face an undue financial burden following an unexpected elevator outage or repair.

BACKGROUND

Currently the Chapter 19.50 places an undue burden on the diverse community of persons with disabilities and seniors. Clarifying these standards would ensure that tenants with disabilities and seniors would have full and equal use of their homes. It would also reduce misunderstandings in the intent of the code that can lead to undue burdens for the largest minority.
