To: Honorable Mayor and Members of the City Council

From: Councilmember Arreguin

Subject: Senate Bill 837: Kindergarten Readiness Act of 2014

RECOMMENDATION:
Adopt a Resolution in support of Senate Bill (SB) 837, authored by Senate Pro Tem Darrell Steinberg, the Kindergarten Readiness Act of 2014, which expands existing pre-kindergarten programs in the state so that all four-year-olds in California may attend preschool for free.

BACKGROUND:
The social and academic benefits of attending preschool are well-documented and incredibly impactful. According to The National Institute for Early Education Research (NIEER), “many children do not arrive at school with the skills they need” and “a large majority of kindergarten teachers believe that their students would be better prepared for school if they participated in prekindergarten.” A great many students have shown that preschool programs show benefits “that carry over into the first years of school and even well into adulthood. These benefits include both (a) increased academic achievement and (b) school success and improvements in social-emotional development behavior and conduct.”

The New York Times points out that early childhood initiatives like preschool “are the best way to chip away at inequality and reduce the toll of crime, drugs and educational failure.”

Following these findings, Senate Pro Tem Darrell Steinberg and nine other state senators, including Senator Loni Hancock, have introduced the Kindergarten Readiness Act of 2014 in an effort to make preschool accessible to every child in California. The act proposes expanding existing pre-kindergarten programs in the state so that all four-year-olds in California may attend preschool for free.

Currently, the state funds preschool (called ‘transitional kindergarten’) to four-year-olds whose birthdays are toward the end of the year and cannot quite yet begin kindergarten. The Kindergarten Readiness Act would expand this program so that it is available to all four-year-olds.
SB 837 does not make preschool attendance compulsory. Instead, this proposed bill would make preschool feasible for all families who would like to avail themselves of the educational, social, and developmental empowerment that can come from enrolling young children in a preschool program. The proposed program would cost an estimated $1 billion over the course of a five-year phase-in plan.

Adopting this resolution in support of SB 837, and sending a copy of the adopted resolution to local elected representatives, would affirm Berkeley’s commitment to bettering the future of every child in our city.

FINANCIAL IMPLICATIONS:
None.

RESOLUTION NO. XXXX

SUPPORTING SENATE BILL 837, WHICH EXPANDS EXISTING PRE-KINDERGARTEN PROGRAMS IN THE STATE SO THAT ALL FOUR-YEAR-OLDS IN CALIFORNIA MAY ATTEND PRESCHOOL FOR FREE

WHEREAS, the City of Berkeley recognizes the importance of early childhood education and has repeatedly sought to make early childhood development a priority in the City; and

WHEREAS, closing the achievement gap however possible must be made a strong focus and priority for Berkeley, as well as the State; and

WHEREAS, research shows that enrollment in pre-kindergarten programs helps to better prepare young children for school, helps to develop social skills, and significantly decreases taxpayer costs for administration of criminal justice; and

WHEREAS, State Senator Pro Tem Darrell Steinberg, State Senator Loni Hancock, and a number of other legislators have introduced Senate Bill 837 (the ‘Kindergarten Readiness Act of 2014’) in an effort to expand existing preschool programs to transition a greater number of young children into the educational system; and

WHEREAS, an expanded statewide preschool program would allow more children in Berkeley to flourish and gain valuable skills prior to entering kindergarten, and help accomplish our 2020 goals of improving the outcomes of all Berkeley children and eliminating the achievement gap.

NOW THEREFORE, BE IT RESOLVED by the Council of the City of Berkeley that the City of Berkeley does hereby support Senate Bill 837 the Kindergarten Readiness Act of 2014.

BE IT FURTHER RESOLVED that copies of this Resolution be sent to Governor Jerry Brown, Senate President Pro Tem Darrell Steinberg, Senator Loni Hancock, Assembly Speaker John A. Perez, and Assemblymember Nancy Skinner.
SENATE BILL No. 837

Introduced by Senators Steinberg, Beall, Block, DeSaulnier, Hancock, Hill, Lara, Leno, Liu, and Wolk
(Coauthor: Assembly Member Bonta)

January 6, 2014

An act to amend Sections 46300 and 48000 of, and to add Article 1.5 (commencing with Section 48005.10) to Chapter 1 of Part 27 of Division 4 of Title 2 of the Education Code, relating to transitional kindergarten.

LEGISLATIVE COUNSEL’S DIGEST

SB 837, as introduced, Steinberg. Schools: transitional kindergarten.
Existing law authorizes a school district or charter school to maintain a transitional kindergarten program, and, as a condition of receipt of apportionments for pupils in a transitional kindergarten program, requires the school district or charter school to comply with specified minimum age requirements for pupils participating in the transitional kindergarten program. Existing law also specifies that a transitional kindergarten program shall not be construed as a new program or higher level of service.

This bill, the Kindergarten Readiness Act of 2014, would instead require each school district or charter school that offers kindergarten to offer transitional kindergarten, and would require a child that meets specified minimum age requirements to be admitted to transitional kindergarten. The bill would authorize the average daily attendance of a school district to include the average daily attendance of pupils enrolled in transitional kindergarten and would require transitional kindergarten to receive a per pupil base grant for apportionment purposes, as specified. The bill would require transitional kindergarten to be taught by teachers and associate teachers who meet certain
requirements, and would require transitional kindergarten to include specified elements that promote integration and alignment with the early learning and child care system and the elementary education system. The bill would require a school district or charter school offering transitional kindergarten to provide public notice of the availability of transitional kindergarten and to administer transitional kindergarten, as specified. The bill would authorize a school district or charter school administering transitional kindergarten to contract with a public local agency or private local provider, or both, to participate in the delivery of transitional kindergarten. The bill would require a private local provider participating in the delivery of transitional kindergarten to be considered a public school employer, as defined, for certain purposes. By requiring school districts and charter schools that offer kindergarten to offer transitional kindergarten, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement. This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

The people of the State of California do enact as follows:

SECTION 1. This act shall be known and may be cited as the Kindergarten Readiness Act of 2014.
SEC. 2. (a) The Legislature finds and declare all of the following:
(1) Recent reforms such as implementation of the common core state standards and the local control funding formula establish increased quality and greater equity in California’s public education system.
(2) However, these reforms do not address the reality that an achievement gap among children is present well before children first step through the kindergarten classroom door.
(3) Recent research shows that by the age of two, low-income children are six months behind in language development relative
to their higher income peers, and that by age five, low-income children are more than two years behind their higher income peers in language development.

(4) Research also shows that California children with the largest gaps in school readiness and achievement are the least likely to participate in any preschool and the least likely to attend high-quality preschool programs.

(5) Only half of California’s low-income preschoolers benefit from existing state preschool programs or federal Head Start programs, and only one-quarter of all children are provided with transitional kindergarten.

(6) Children who do not read proficiently by the end of third grade are four times less likely to graduate from high school on time.

(7) Only 48% of California’s third graders tests proficient or better in English language arts.

(8) Nationally, more than 100 studies have shown that high-quality preschool significantly improves a child’s school readiness and school performance.

(9) Numerous longitudinal studies have shown that high-quality transitional kindergarten programs decrease grade retention and special education placements and increase high school graduation rates, college enrollment rates, and earnings in adulthood. High-quality transitional kindergarten programs also decrease taxpayer costs on criminal justice and welfare.

(10) If California were to invest in high-quality preschool programs, the savings in the prison system alone are estimated to reach $1.1 billion per year due to reducing the prison population by 13,000 prisoners.

(b) It is the intent of the Legislature in enacting the Kindergarten Readiness Act of 2014 to accomplish all of the following:

(1) Make early childhood education in California a rational and efficient system so that all of California’s four-year-old children have access to a voluntary, high-quality transitional kindergarten program one year before enrolling in kindergarten.

(2) More strategically use existing state and federal funds to provide full-day, developmentally appropriate services for four-year-old children from low-income families, and provide high-quality early learning and care to those children who need it the most.
(3) Ensure that children are four years of age by September 1 in order to attend transitional kindergarten in that academic year.
(4) Ensure that parents and guardians receive timely information from local educational agencies about the new age requirements for enrollment in transitional kindergarten that are implemented pursuant to this act.

SEC. 3. Section 46300 of the Education Code is amended to read:

46300. (a) In computing average daily attendance of a school district or county office of education, there shall be included the attendance of pupils while engaged in educational activities required of those pupils and under the immediate supervision and control of an employee of the school district or county office of education who possessed a valid certification document, registered as required by law.

(b) (1) For purposes of a work experience education program in a secondary school that meets the standards of the California State Plan for Career Technical Education, “immediate supervision,” in the context of off-campus work training stations, means pupil participation in on-the-job training as outlined under a training agreement, coordinated by the school district under a state-approved plan, wherein the employer and certificated school personnel share the responsibility for on-the-job supervision.

(2) The pupil-teacher ratio in a work experience program shall not exceed 125 pupils per full-time equivalent certificated teacher coordinator. This ratio may be waived by the state board pursuant to Article 3 (commencing with Section 33050) of Chapter 1 of Part 20 of Division 2 under criteria developed by the state board.

(3) A pupil enrolled in a work experience program shall not be credited with more than one day of attendance per calendar day, and shall be a full-time pupil enrolled in regular classes that meet the requirements of Section 46141 or 46144.

(c) (1) For purposes of the rehabilitative schools, classes, or programs described in Section 48917 that require immediate supervision, “immediate supervision” means that the person to whom the pupil is required to report for training, counseling, tutoring, or other prescribed activity shares the responsibility for the supervision of the pupils in the rehabilitative activities with certificated personnel of the school district.
(2) A pupil enrolled in a rehabilitative school, class, or program shall not be credited with more than one day of attendance per calendar day.

(d) (1) For purposes of computing the average daily attendance of pupils engaged in the educational activities required of high school pupils who are also enrolled in a regional occupational center or regional occupational program, the school district shall receive proportional average daily attendance credit for those educational activities that are less than the minimum schoolday, pursuant to regulations adopted by the state board; however, none of that attendance shall be counted for purposes of computing attendance pursuant to Section 52324.

(2) A school district shall not receive proportional average daily attendance credit pursuant to this subdivision for a pupil in attendance for less than 145 minutes each day.

(3) The divisor for computing proportional average daily attendance pursuant to this subdivision is 240, except that, in the case of a pupil excused from physical education classes pursuant to Section 52316, the divisor is 180.

(4) Notwithstanding any other provision of law, travel time of pupils to attend a regional occupational center or regional occupational program shall not be used in any manner in the computation of average daily attendance.

(e) (1) In computing the average daily attendance of a school district, there shall also be included the attendance of pupils participating in independent study conducted pursuant to Article 5.5 (commencing with Section 51745) of Chapter 5 of Part 28 for five or more consecutive schooldays.

(2) A pupil participating in independent study shall not be credited with more than one day of attendance per calendar day.

(f) For purposes of cooperative career technical education programs and community classrooms described in Section 52372.1, “immediate supervision” means pupil participation in paid and unpaid on-the-job experiences, as outlined under a training agreement and individualized training plans wherein the supervisor of the training site and certificated school personnel share the responsibility for the supervision of on-the-job experiences.

(g) (1) In computing the average daily attendance of a school district, there shall be included the attendance of pupils in kindergarten after they have completed one school year in...
kindergarten or pupils in a transitional kindergarten program after they have completed one year in that program if one of the following conditions is met: transitional kindergarten and kindergarten.

(A) The school district has on file for each of those pupils an agreement made pursuant to Section 48011, approved in form and content by the department and signed by the pupil’s parent or guardian, that the pupil may continue in kindergarten for not more than one additional school year.

(B) The pupils participated in a transitional kindergarten program pursuant to subdivision (c) of Section 48000.

(2) A school district may not include for apportionment purposes the attendance of any pupil for more than two years in kindergarten or for more than two years in a combination of transitional kindergarten and kindergarten.

(3) For purposes of transitional kindergarten operated by a private local provider pursuant to paragraph (2) of subdivision (a) of Section 48005.20, “immediate supervision” means being under the immediate supervision of an employee of the private local provider who satisfies the requirements of Section 48005.35.

SEC. 4. Section 48000 of the Education Code is amended to read:

48000. (a) A child shall be admitted to a kindergarten maintained by the school district at the beginning of a school year, or at a later time in the same year, if the child will have his or her fifth birthday on or before one of the following dates:

1. December 2 of the 2011–12 school year.
3. October 1 of the 2013–14 school year.
4. September 1 of the 2014–15 school year and each school year thereafter.

(b) A child shall be admitted to a transitional kindergarten maintained by the school district at the beginning of a school year, or at a later time in the same year, if the child will have his or her fifth birthday between the following dates:

1. September 2, 2015, to February 1, 2016, inclusive, for the 2015–16 school year.
2. September 2, 2016, to April 1, 2017, inclusive, for the 2016–17 school year.
(3) September 2, 2017, to June 1, 2018, inclusive, for the 2017–18 school year.

(4) September 2, 2018, to August 2, 2019, inclusive, for the 2018–19 school year.

(c) A child shall be admitted to a transitional kindergarten maintained by the school district at the beginning of a school year, or at a later time in the same year, if the child will have his or her fourth birthday on or before September 1 of the 2019–20 school year and each school year thereafter.

(d) The governing board of a school district maintaining one or more kindergartens may, on a case-by-case basis, admit to a kindergarten a child having attained the age of five years at any time during the school year with the approval of the parent or guardian, subject to the following conditions:

(1) The governing board of the school district determines that the admittance is in the best interests of the child.

(2) The parent or guardian is given information regarding the advantages and disadvantages and any other explanatory information about the effect of this early admittance.

(e) As a condition of receipt of apportionment for pupils in a transitional kindergarten program pursuant to subdivision (g) of Section 46300, a school district or charter school shall ensure the following:

(1) In the 2012–13 school year, a child who will have his or her fifth birthday between November 2 and December 2 shall be admitted to a transitional kindergarten program maintained by the school district.

(2) In the 2013–14 school year, a child who will have his or her fifth birthday between October 2 and December 2 shall be admitted to a transitional kindergarten program maintained by the school district.

(3) In the 2014–15 school year and each school year thereafter, a child who will have his or her fifth birthday between September 2 and December 2 shall be admitted to a transitional kindergarten program maintained by the school district.

(d) For purposes of this section, “transitional kindergarten” means the first year of a two-year kindergarten program that uses a modified kindergarten curriculum that is age and developmentally
appropriate. a school-year long kindergarten readiness grade level
that is age and developmentally appropriate for a child who will
be four years old before September 1 of the year in which he or
she enrolls in transitional kindergarten.

(c) A transitional kindergarten shall not be construed as a new
program or higher level of service.

SEC. 5. Article 1.5 (commencing with Section 48005.10) is
added to Chapter 1 of Part 27 of Division 4 of Title 2 of the
Education Code, to read:

Article 1.5. Kindergarten Readiness Act of 2014

48005.10. Transitional kindergarten is hereby established to
do all of the following:
(a) Support all children in developing the skills necessary for
success in school and life. These skills shall include, but are not
limited to, all of the following:
(1) Cognitive skills such as language, early literacy, and
numeracy.
(2) Social-emotional skills such as perseverance, self-control,
self-esteem, motivation, and conscientiousness.
(3) Physical skills such as gross and fine motor development,
and healthy eating habits.
(b) Be age and developmentally appropriate.
(c) Build on high-quality early learning and child care programs,
including federal Head Start programs, to sustain the gains that
children achieve attending those programs.

48005.15. (a) A school district or charter school that offers
kindergarten shall make transitional kindergarten available to all
eligible children and shall allow, to the greatest extent possible, a
parent of an eligible child to choose the transitional kindergarten
that the eligible child attends.

(b) On or before July 1, 2015, each county superintendent of
schools shall conduct a review of the level of access to transitional
kindergarten, state preschool, and Head Start provided to eligible
children within the county. The review shall include, but is not
limited to, a description of the plans of the school districts and
charter schools in the county that offer kindergarten, to make
transitional kindergarten available to all eligible children by the
2019–20 school year. The county superintendent of schools shall post the results of the review on its Internet Web site.

(c) To encourage the efficient use of existing facilities, transitional kindergarten may be operated using available classroom space at a public schoolsite meeting kindergarten classroom requirements, or at any public or private facility that has a child care license for age-eligible children, as defined in Division 12 of Title 22 of the California Code of Regulations.

(d) Federal funding for preschool programs, and state funding annually appropriated in the Budget Act for the support of state preschool programs, shall be used to provide services for eligible three-, four-, and five-year-old children, including augmenting transitional kindergarten to provide full-day learning and child care services for participants.

(e) Transitional kindergarten funds shall supplement, and not supplant, federal and state funding for existing child care and development programs.

48005.20. (a) A school district or charter school offering transitional kindergarten shall do both of the following:

(1) Provide public notice of the availability of transitional kindergarten using a variety of strategies to reach and inform families living in areas of poverty or high linguistic diversity, including, but not limited to, providing information through schoolsite councils, school advisory groups, community organizations, and parent meetings.

(2) Administer the program for participating children. A school district or charter school administering transitional kindergarten may contract with a public local agency, including, but not limited to, a county office of education, or a private local provider, or both, to participate in the delivery of transitional kindergarten consistent with the statutory requirements of transitional kindergarten.

(b) (1) It is the intent of the Legislature that a school district or charter school offering transitional kindergarten provide high-quality professional development aligned to transitional kindergarten standards adopted by the state board and designed to improve child learning and development. It is further the intent of the Legislature that professional development for transitional kindergarten teachers and associate teachers supports both of the following:
(A) Teacher-child interactions that promote child engagement and learning.

(B) The use of child-level and class-level data to inform instructional strategies.

(2) Professional development for transitional kindergarten teachers and associate teachers shall be aligned with the professional development provided to teachers and administrative staff in kindergarten and grades 1 to 3, inclusive.

48005.25. Transitional kindergarten shall include all of the following elements to promote integration and alignment with the early learning and child care system and the elementary education system:

(a) Until statewide transitional kindergarten standards are adopted, use of the research-based age and developmentally appropriate preschool learning foundations of the department for all eight early childhood domains and the kindergarten education content standards that are aligned with elementary education standards.

(b) Use and implementation of curriculum frameworks, instructional materials, and diagnostic assessment tools that are aligned with the California Preschool Learning Foundations and the kindergarten education content standards.

(c) Inclusion in the single school plan for pupil achievement and the local control and accountability plan.

(d) Participation in the California Longitudinal Pupil Achievement Data System and the California School Information Services.

(e) Coordination with other providers of services to young children, including, but not limited to, providers of health insurance, health services, including mental and behavioral health, developmental screening and assessment, parent literacy and education, and social services, especially through systems of care provided by First 5 California programs, preschool, and school health services and clinics.

(f) Coordination of services with full-day, full-year early learning and child care programs.

48005.30. (a) On or before July 1, 2015, the Superintendent shall develop, and the state board shall adopt, the regulations necessary to implement this article and transitional kindergarten and shall incorporate existing regulations and guidelines, as
appropriate. The state board may adopt emergency regulations for purposes of this subdivision, and the adoption of emergency regulations by the state board pursuant to this subdivision shall be deemed necessary for the immediate preservation of the public peace, health and safety, or general welfare.

(b) On or before July 1, 2016, the Superintendent shall develop, and the state board shall adopt, transitional kindergarten standards, curriculum frameworks, and instructional materials that include, but are not limited to, social-emotional development, English language arts, English language development, mathematics, and science, that are based on the California Preschool Learning Foundations and aligned to kindergarten education content standards.

(c) On or before January 31, 2017, the state board shall revise the local control and accountability plan template, adopted pursuant to Section 52064, to include any changes necessary to reflect the provision of high-quality transitional kindergarten to all eligible children.

48005.35. (a) On or before July 1, 2015, all transitional kindergarten classes shall be taught by a teacher who holds, at a minimum, an associate degree, and has a professional development plan that provides for a baccalaureate degree with at least 24 units in early childhood education and a teaching credential by July 1, 2019.

(b) On or before July 1, 2019, all transitional kindergarten classes shall be taught by a teacher who holds a baccalaureate degree with at least 24 units in early childhood education and a teaching credential.

(c) On or before July 1, 2015, all transitional kindergarten associate teachers shall have, at a minimum, 24 units in early childhood education, and a professional development plan that provides for an associate degree by July 1, 2019.

(d) On or before July 1, 2019, all transitional kindergarten associate teachers shall have an associate degree with at least 24 units in early childhood education.

(e) Commencing with the 2015–16 school year, for purposes of compensation, including salary and benefits, transitional kindergarten teachers and associate teachers shall provide two part-day sessions per day in order to be considered full-time employees.
(f) On or before July 1, 2015, the Superintendent, in collaboration with the Commission on Teacher Credentialing, the public postsecondary education system, including the California Community Colleges, and private postsecondary institutions, shall establish a workforce development plan for transitional kindergarten teachers and associate teachers that provides for adequate opportunities for existing early childhood educators to obtain the necessary transitional kindergarten qualifications by July 1, 2019.

(g) Commencing with the 2015–16 school year, transitional kindergarten shall be taught by at least one teacher and one associate teacher, and class size shall be limited to no more than 20 children.

48005.40. (a) Transitional kindergarten shall be eligible for school facilities funding.

(b) Funds made available to public schools for joint use facilities may be used for transitional kindergarten.

(c) Public local agencies or private local providers, or both, participating in the delivery of transitional kindergarten are encouraged to seek shared use agreements with a broad array of public and private entities.

48005.45. Commencing with the 2015–16 school year, transitional kindergarten shall receive a per pupil base grant per unit of average daily attendance equal to two-thirds of the annual per pupil base grant provided for in subparagraph (A) of paragraph (1) of subdivision (d) of Section 42238.02, as adjusted for inflation pursuant to paragraph (2) of subdivision (d) of Section 42238.02, plus an additional adjustment of 10.4 percent, and a supplemental grant add-on, as computed pursuant to subdivision (e) of Section 42238.02.

48005.50. For purposes of establishing collective bargaining rights for employees of a private local provider of transitional kindergarten pursuant to the terms of an agreement with the administering school district or charter school, as a condition of the receipt of funds, the private local provider shall be considered a public school employer, as defined in subdivision (k) of Section 3540.1 of the Government Code, and Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, shall apply to the private local provider.
SEC. 6. If the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.
Every 4-year-old in Oklahoma gets access to a year of high-quality preschool. Above, toddlers participate in class at an Educare school in Tulsa.

By NICHOLAS KRISTOF
Published: November 9, 2013

TULSA, Okla. — LIBERALS don’t expect Oklahoma to serve as a model of social policy. But, astonishingly, we can see in this reddest of red states a terrific example of what the United States can achieve in early education.

Every 4-year-old in Oklahoma gets free access to a year of high-quality prekindergarten. Even younger children from disadvantaged homes often get access to full-day, year-round nursery school, and some families get home visits to coach parents on reading and talking more to their children.

The aim is to break the cycle of poverty, which is about so much more than a lack of money. Take two girls, ages 3 and 4, I met here in one Tulsa school. Their great-grandmother had her first child at 13. The grandmother had her first at 15. The mom had her first by 13, born with drugs in his system, and she now has four children by three fathers.

But these two girls, thriving in a preschool, may break that cycle. Their stepgreat-grandmother, Patricia Ann Gaines, is raising them and getting coaching from the school on how
to read to them frequently, and she is determined to see them reach the middle class.

“I want them to go to college, be trouble-free, have problem with incarceration,” she said.

Research suggests that high-poverty parents, some of them stressed-out kids themselves, don’t always “attach” to their children or read or speak to them frequently. One well-known study found that a child of professionals hears 30 million more words by the age of 4 than a child on welfare.

So the idea is that even the poorest child in Oklahoma should have access to the kind of nurturing that is routine in middle-class homes. That way, impoverished children don’t begin elementary school far behind the starting line — and then give up.

President Obama called in his State of the Union address this year for a nationwide early education program like this, for mountains of research suggests that early childhood initiatives are the best way to chip away at inequality and reduce the toll of crime, drugs and educational failure. Repeated studies suggest that these programs pay for themselves: build preschools now, or prisons later.

Because Obama proposed this initiative, Republicans in Washington are leery. They don’t want some fuzzy new social program, nor are they inclined to build a legacy for Obama. Yet national polling suggests that a majority of Republicans favor early-education initiatives, so I’d suggest that Obama call for nationwide adoption of “The Oklahoma Project” and that Republicans seize ownership of this issue as well.

It’s promising that here in Oklahoma, early education isn’t seen as a Republican or Democratic initiative. It is simply considered an experiment that works. After all, why should we squander human capacity and perpetuate social problems as happens when we don’t reach these kids in time?

“This isn’t a liberal issue,” said Skip Steele, a Republican who is a Tulsa City Council member and strong supporter of early education. “This is investing in our kids, in our future. It’s a no-brainer.”

Teachers, administrators and outside evaluators agree that students who go through the preschool program end up about half a year ahead of where they would be otherwise.

“We’ve seen a huge change in terms of not only academically the preparation they have walking into kindergarten, but also socially,” said Kirt Hartzler, the superintendent of Union Public Schools in Tulsa. “It’s a huge jump-start for kids.”

Oklahoma began a pilot prekindergarten program in 1980, and, in 1998, it passed a law providing for free access to prekindergarten for all 4-year-olds. Families don’t have to send their children, but three-quarters of them attend.

In addition, Oklahoma provides more limited support for needy children 3 and under. Oklahoma has more preschools known as Educare schools, which focus on poor children beginning in their first year, than any other state.

Oklahoma also supports home visits so that social workers can coach stressed-out single moms (or occasionally dads) on the importance of reading to children and chatting with them constantly. The social workers also drop off books; otherwise, there may not be a single children’s book in the house.

The Oklahoma initiative is partly a reflection of the influence of George B. Kaiser, a Tulsa billionaire who searched for charitable causes with the same rigor as if he were looking at financial investments. He decided on early education as having the highest return, partly...
because neuroscience shows the impact of early interventions on the developing brain and partly because careful studies have documented enormous gains from early education.

So Kaiser began investing in early interventions in Oklahoma and advocating for them, and, because of his prominence and business credentials, people listened to the evidence he cited. He also argues, as a moral issue, that all children should gain fairer access to the starting line.

“Maybe the reason that rich, smart parents had rich, smart children wasn’t genetics,” Kaiser told me, “but that those rich, smart parents also held their kids, read to them, spent a lot of time with them.”

I tagged along as a social worker from Educare visited Whitney Pingleton, 27, a single mom raising three small children. They read to the youngest and talked about how to integrate literacy into daily life. When you see a stop sign, the social worker suggested, point to the letters, sound them out and show how they spell “stop.”

Some of the most careful analysis of the Oklahoma results comes from a team at Georgetown University led by William T. Gormley Jr. and published in peer-reviewed journals. The researchers find sharp gains in prereading, prewriting and prearithmetic skills, as well as improvements in social skills. Some experts think that gains in the ability to self-regulate and work with others are even more important than the educational gains — and certainly make for less disruptive classes. Gormley estimates that the benefits of Oklahoma’s program will outweigh the costs by at least a ratio of 3 to 1.

So how about it, America?

Can we embrace “The Oklahoma Project” — not because it’s liberal or conservative, but because it’s what is best for our kids and our country?
