1. Conduct a traffic safety assessment of the streets surrounding San Pablo Park: Identify measures that can be taken to reduce risk to pedestrians, pets, and bikers, particularly in light of the number of daycare providers that bring dozens of infants, toddlers and young children to the park daily.
2. Extend the hours that the Frances Albrier Community Center is open: Open at 9:30am rather than 1pm to provide access to toilets, have a staff presence and provide a shelter option in case of an emergency situation.
3. Re-initiate classes for daycare providers who use San Pablo Park out of the Frances Albrier Community Center: Historically, the City provided a variety of classes on safety and recreation for daycare providers who use San Pablo Park. This referral includes re-establishing a series of courses that daycare providers find useful based on gathering their input. One such course requested was sheltering in place in the situation of an active shooter.
4. Develop, implement and coordinate drills for active shooter and other emergency protocol at San Pablo Park: Create protocol with input from community partners, then orient licensed daycare providers, coaches, trainers and program staff who operate out of the park, and conduct drills with City staff operating the Center and providers in order to prepare for emergencies and how to use the Center as a shelter during or following them.
