INFORMATION CALENDAR
July 23, 2019

To: Honorable Mayor and Members of the City Council
From: Dee Williams-Ridley, City Manager
Submitted by: Scott Ferris, Director, Parks, Recreation and Waterfront
Phil Harrington, Director, Public Works
Subject: Update on Measure T1 City Infrastructure Bond Program

INTRODUCTION
This is a semi-annual update on the implementation of the $100 million Measure T1 bond program to renovate existing City facilities and infrastructure for the period December 2018 through May 2019. The T1 program is approaching the mid-point of Phase 1. This progress report provides the City Council with an update on key issues and upcoming challenges, non-project specific milestones, and the progress of each project.

BACKGROUND
In November 2016, Berkeley voters approved Measure T1—a $100 million dollar general obligation bond to repair, renovate, replace or reconstruct the City’s aging existing infrastructure, including facilities, streets, sidewalks, storm drains, and parks. Measure T1 passed with 86.5% of the vote.

After the passage of Measure T1, the City Manager proposed a three phase implementation plan and a list of possible Phase 1 projects to be considered by the Council, the City’s commissions, and the general public.

From December 2016 through June 2017, the City undertook a robust public process to gather input on the proposed projects. In addition to three Measure T1 Workshops for the general public, the Parks & Waterfront and Public Works Commissions invited and received input from the public and other City Commissions. They submitted a joint report to Council in June 2017 detailing their recommendations. The City Manager

---

1 See https://www.cityofberkeley.info/MeasureT1/
2 See https://www.cityofberkeley.info/uploadedFiles/Parks_Rec_Waterfront/Level_3__General/Measure%20T1%20GO%20Bonds%20Recommendations.pdf
incorporated this input and submitted a final recommended list of projects\textsuperscript{4}. Council adopted this list and proposed plan for implementing Phase 1 of the T1 bond program on June 27, 2017.

On January 23, 2018, Council adopted resolution 68,290-N.S.\textsuperscript{5} allocating $2 million from T1 Phase 1 for the Adult Mental Health Clinic located at 2640 Martin Luther King Jr. Way.

At the December 6, 2018 Council worksession\textsuperscript{6}, staff notified City Council of a funding gap for the T1 program due to the cost of approved projects exceeding bond proceeds, an increase in energy upgrades included in the facility projects, and cost escalation. After receiving construction bids and an engineer’s estimate on three major projects, staff was able to more accurately estimate the funding gap and met with the Measure T1 Joint Subcommittee to discuss options on addressing this funding gap. On February 7\textsuperscript{th} and 13\textsuperscript{th}, 2019 respectively, the Public Works and Parks & Waterfront Commissions voted to recommend additional funding to complete Phase 1 projects including additional escalation. On March 26, 2019, Council adopted resolution 68,802-N.S.\textsuperscript{7} that allowed the General Fund to advance $5.3 million to cover the funding gap and be reimbursed later when T1 Phase 2 bond dollars become available.

The current budget for Measure T1 Phase 1 is approximately $41.8 million (See Table 1 for the breakdown of this funding).

\textbf{CURRENT SITUATION AND ITS EFFECTS}

The Measure T1 team is made up of Parks, Recreation, & Waterfront and Public Works staff that meets bi-weekly to discuss and solve T1 related general and project-specific issues. The team receives guidance from the T1 Joint Subcommittee of the Parks & Waterfront and Public Works Commissions. The upcoming challenges for the program in the next six months are detailed below.

\textsuperscript{4} See https://www.cityofberkeley.info/Clerk/City_Council/2017/06_June/Documents/2017-06-27_Item_49_Implementing_Phase_1.aspx

KEY ISSUES AND UPCOMING CHALLENGES

1. Completing Phase 1 Projects

Phase 1 is expected to run through June 2021. Staff are continuously monitoring expenditures to ensure that the program will meet the goal of spending 85% of bond proceeds by November 2020. Based on current projections, we are on track to meet this goal.

As seen in the below chart, project spending is starting to gain momentum and staff estimates that $32 million (92% of bond proceeds) will be expended by the end of FY 2020 (June 2020).

During the first two years of the bond measure, much of the design and planning work of the construction projects were completed. During FY 20, many of the large projects, such as the Berkeley Mental Health Services Building, North Berkeley Senior Center, Live Oak Community Center, Adeline Street and Hearst Avenue paving, San Pablo Park, and the Rose Garden pathways, pergola, and tennis courts will be constructed. Additionally, all the planning and design projects are underway.

Chart 1 – Measure T1 Phase 1 Program Expenditures

2. Planning for Phase 2
The planning and public process for Phase 2 is anticipated to start in July 2019, approximately two years before Council approves Phase 2 projects. The T1 team will begin to work with the lead commissions to identify a fair and equitable process for choosing Phase 2 projects. Table 2 details a possible timeline for the planning and public input process.

### Table 2 – Timeline for Phase 2 Public Input Process

<td>Present recommendations to Council.</td>
</tr>
<tr>
<td>June 2021</td>
<td>Council approves Phase 2 projects.</td>
</tr>
</tbody>
</table>

3. **Financial Audit**
   
   Staff will be engaging with the City’s current external financial auditor to perform an audit on Measure T1 bond expenditures to ensure that expenses are in accordance with bond measure requirements. Audits are planned for every two years. The first two years of Phase 1 will be completed by the end of June 2019. Staff expects to have approximately six financial audits during the life of Measure T1. The first financial audit is anticipated to start in the fall of 2019.

4. **Identification of a Replacement Project for the King School Park Bioswale Project**
   
   On June 27, 2017, Council approved the design and construction of the King School Park Bioswale for T1 Phase 1. After further evaluation of the site, staff found that the project would not be feasible since the project would require root removal of multiple trees which could have an adverse impact on the health of the trees. Over the past year, staff had been discussing this issue with the Public Works Commission and the Public Works Watershed Subcommittee to identify alternate green infrastructure projects. In June 2019, staff finalized the Green Infrastructure Plan and identified 11 priority sites. The scope for these sites will include design & planning and may include construction. Staff and Commission are recommending that these 11 sites, the evaluation of the Sacramento Street center median, and a green infrastructure project on Ward Street (already an existing T1 project) be included as T1 Phase 1 projects. This list of sites for green infrastructure improvements was shared with the Measure T1 Joint Subcommittee on July 8, 2019.

### KEY MILESTONES

Since the last update, staff have accomplished the following:
1. Development of recommendation to eliminate the funding gap.
   - Starting in August 2018, held five meetings with the Measure T1 Joint Subcommittee to discuss the funding gap issue and options to address the gap.
   - Presented the revised funding gap to Council on March 26, 2019, provided several options to address the gap, and requested additional funding to complete Phase 1 projects. Council approved $5.3 million to complete Phase 1 projects.

2. Enhanced residents' awareness of the Measure T1 Program.
   - Advertised the T1 website on Berkeleyside. This advertisement will run through June 30, 2019.
   - Developed and posted site signs. These signs state the project description and the website address for the Measure T1 website.
   - Created a two-page update on Measure T1 for the City’s 2019 Summer Activity Guide, which is mailed to all residents.

3. Developed a monthly expenditure tracking and projection tool.
   - Continuously track expenditures to ensure we are on track to spend 85% of bond proceeds by November 2020.

4. Continued the public input process on specific projects.
   - Continued to advertise and hold meetings and events to solicit input from the community. Meetings were held for the following projects:
     - December 3, 2018: Hearst Avenue
     - March 3, 2019: Live Oak Community Center (2nd meeting)
     - April 13, 2019: San Pablo Park Playground and Tennis Courts (2nd meeting)
     - April 27, 2019: Strawberry Creek Park
   - Upcoming public meetings and events include:
     - T1 Joint Subcommittee Meeting: multiple meetings starting July 8, 2019
     - San Pablo Park Tennis Courts and Playgrounds (3rd meeting): July 13, 2019
     - Grove Park (2nd meeting): Summer 2019
     - Citywide Restroom Assessment: multiple meetings starting summer 2019
     - Frances Albrier Community Center: multiple meetings starting fall 2019
5. Established professional consulting services needed for T1 projects. The below consulting services have been procured and are available for all T1 projects.
   - Architectural Services
   - Civil Engineering Services
   - Electrical Engineering Services
   - Geotechnical Engineering Services
   - Landscape Architectural Services
   - Project Management/Construction Management Services

PROJECT-SPECIFIC UPDATES
All 34 of the identified Measure T1 projects have started. The majority of these T1 projects will start construction in 2019. During the next 12 months, an estimated $25 million worth of projects will be under construction. The City has authorized over 30 contracts and/or task orders and has held 19 public meetings and events.
In the last six months, significant progress has been made. Both the Mental Health Services Center are under construction. Live Oak Community Center, the Rose Garden (Pathways, Tennis Courts, Pergola, and repair of erosion), Adeline Street and Hearst Avenue paving, and the George Florence Park play equipment upgrade projects will be in construction in the next six months. Additionally, several large “planning only” projects have started, including the Old City Hall/Veterans Building/ Civic Center Park, the Citywide Restroom Assessment, the Frances Albrier Community Center and the Willard Park Clubhouse. Attachment 1 provides a list of the 34 approved Phase 1 Projects, including project description, budget, project manager, and status update. Attachment 2 provides a timeline by month for each T1 project through the remainder of Phase 1. Attachment 3 provides a more detailed update for each project.

BOND PROGRAM MANAGEMENT

---

8 See https://www.cityofberkeley.info/uploadedFiles/Parks_Rec_Waterfront/Level_3__-General/6-27-17%20Adopted%20list%20of%20projects.pdf

Phase 1 projects include a mix of types of projects:
- **Planning** projects will focus on public processes, feasibility studies and analyses that culminate in a preferred project plan and cost estimate. These projects will be ready for the design and construction phase when funding is identified.
- **Planning & Design** projects will include public process, design, permits and bid package, and are intended to produce shove-ready projects for a later phase of T1 funding, grant funding, or other funding.
- **Planning, Design & Construction** projects will be entirely designed and built during Phase 1.
The T1 Management Team continues to meet regularly to review the T1 budget, expenditures, project progress, and to prepare detailed reports for Council, Commissions and the community.

**T1 Manual**
The T1 Policies and Procedures Manual was completed and uploaded to the City’s [website](https://www.cityofberkeley.info/MeasureT1/) in January 2019. Staff worked with a consultant to develop the manual which provides clear, concise guidelines on the management of T1 funds. The manual is expected to improve audit readiness, improve understanding of policies and procedures by staff and the community, and will help prepare the City for the upcoming audit. Staff are using the manual as a guideline to implement the T1 program and will update the manual as needed.

**Financials**
As shown in Table 2, $3,814,301 of T1 funds have been expended as of May 13, 2019. We continue to be on track to spend 85% of T1 Phase 1 bond proceeds by November of 2020.

**Communication**

9 [https://www.cityofberkeley.info/MeasureT1/](https://www.cityofberkeley.info/MeasureT1/)

10 *Staff/Project Management costs* include City staff to plan, manage, and supervise T1 projects; and a full-time analyst to provide direct administrative support for T1 projects. This does not include costs for other supervision and administration, such as other managers, departmental administrative staff, and other support functions like IT, Human Resources, and Finance.

11 *Facilities, Equipment, Supplies, and Services* includes the cost to lease T1’s share of office space on the 5th Floor of 1947 Center St., T1-related office furniture, computers, printers, office supplies, copier lease, staff trainings, communication materials, and audits.

12 *Project costs* will include all direct project expenses.
Staff will continue to provide semi-annual updates to the Parks & Waterfront and Public Works Commissions and to City Council. Staff continues to use the City's Measure T1 website\(^\text{13}\) to update the community on the bond program. This includes an updated story map\(^\text{14}\), providing photos, mapping and summaries of each approved T1 project. Community members can visit the Measure T1 Phase 1 Project Updates\(^\text{15}\) page for project updates, community meeting dates, and quarterly updates. For questions or information about Measure T1, community members are encouraged to email T1@CityofBerkeley.info.

ENVIRONMENTAL SUSTAINABILITY

Measure T1 provides potential opportunities to advance the City’s environmental sustainability goals. For example, facility upgrade projects are being designed to not only improve safety and address deferred improvements, but also to increase resource efficiency and access to clean energy. The renovations of the North Berkeley Senior Center, Live Oak Community Center, and the Mental Health Services Center will incorporate as many energy efficiency upgrades as feasible within the allotted budget such as a rooftop solar system, an HVAC system that incorporates heat pumps, and energy efficient windows and lights per the Berkeley Resilience Strategy and Climate Action Plan.

FUNCTIONAL ART

In Resolution 67,795-N.S.\(^\text{16}\), Council resolved that 1% of bond proceeds shall be available for functional art integrated into Measure T1-funded projects. The bond proceeds for Phase 1 of Measure T1 were $35 million, resulting in a 1% functional art contribution of $350,000. The total amount of $350,000 has been deducted from Phase 1 Measure T1 projects.

A Request for Qualifications (RFQ)\(^\text{17}\) was posted on September 11, 2018 seeking artists to create functional art at the North Berkeley Senior Center and San Pablo Park Tennis Courts and Play Area.

In November 2018, a Selection Panel established a pool of qualified candidates for the North Berkeley Senior Center. In February 2019, the Selection Panel selected Berkeley-based artist, Masayuki Nagase, to create artwork for the entry plaza of the North Berkeley Senior Center. The artist will create a variety of carved stone pavers to be integrated into the plaza’s paving and a large carved stone table-bench element will be located in the plaza’s seating area, which will provide additional seating or a table top while plaza users gather in the area. The theme of the artwork is “trees”, representing unity, community, and diversity.

The selection process for functional art at the San Pablo Park Project is planned for June 2019.

## Measure T1 Funding

- **Total** $37,501,020
- **Funding** $10,163,642
- **Funding** $47,672,400

*Per Measure T1 bond requirements, 2% of bond proceeds is to be used for actual. Phase 1 art contribution is $150,000.*

*On March 14, 2019, Council adopted Resolution No. 88,820-3-15, authorizing an additional $5.3 million in funding from the General Fund to complete Phase 1 projects. The General Fund will be reimbursed once Phase 2 proceeds are received.*
## Update on Measure T1

**July 23, 2019**

- North Berkeley Senior Center Seismic Upgrade and Renovation
- Berkeley Mental Health Services Center Renovation
- Live Oak Community Center Seismic Upgrade and Renovation
- Rose Garden Tennis Courts, Pathways, and Pergola
- Rose Garden: Repair of Erosion
- San Pablo Park Play Areas Renovation
- San Pablo Tennis Courts Renovation

---

### Completed

- Tom Bates Field Synthetic Turf Replacement
- Ann Chandler Health Clinic Electrical Design
Below is a detailed summary of projects that are currently underway:

**Design and Planning Projects**

- **City-Wide Restroom Needs Assessment:** The consultant is currently gathering data to compile a database of existing restroom inventory, 311 data, non-crime police department calls for service, and public infrastructure to develop a master database and map to identify potential locations for renovations or new locations. Staff and the consultant are developing a community outreach strategy and anticipates to start community meetings to determine key issues and “hotspot” locations in June 2019.

- **Old City Hall/ Veteran’s Building/ Civic Center Park Conceptual Design:** The T1 team is working in conjunction with the Office of Economic Development to develop a community process to gather feedback for conceptual designs for these sites. Staff has evaluated consultant proposals and expects to select a consultant by July 2019. The anticipated start date for the planning phase is August 2019 and will be completed in fall of 2020.

- **Transfer Station Master Plan:** This project is funded by the Zero Waste Fund. The feasibility study is on-going.

- **West Berkeley Service Center Planning and Conceptual Design:** Alternate funding secured.  

- **Frances Albrier Community Center Planning and Design:** A consultant has been selected, design has started, and the public process is anticipated to begin in the fall of 2019.

- **Tom Bates Fields North Field House and Restroom Planning and Design:** Conceptual design has been completed.

- **Willard Clubhouse Planning and Design:** Staff is currently evaluating consultant proposals and anticipate to have an executed contract and begin the public process in the fall of 2019.

---

Construction Projects

- **Live Oak Community Center Seismic Upgrade and Renovation:** A second community meeting to share 90% design was held on March 6, 2019. Plans have been submitted for permit review. Construction is planned to begin in September 2019 and is anticipated to last 12 months.

- **North Berkeley Senior Center (NBSC) Seismic Upgrade and Renovation:** Construction is in progress and anticipated to be completed by July 2020. A groundbreaking ceremony was held on May 2, 2019.

- **Strawberry Creek Park Restroom Replacement:** Phase 1 improvements to the park were completed in May 2019, and were funded by the Parks Tax and a Measure WW Grant from the East Bay Regional Parks District. The restroom will be added to Phase 2 improvements, which are also funded by Parks Tax and the Capital Improvement Fund. An initial community meeting for Phase 2 improvements was held on May 19, 2018. A second meeting to present conceptual designs and gather feedback was held on April 27, 2019.

- **Mental Health Building Renovation:** Construction is in progress and anticipated to be completed by June 2020. Currently, the team is finalizing the abatement and will then start with the demolition.

- **Berkeley Health Clinic Electrical Improvements:** Consultant completed the needs assessment and developed an initial cost estimate to renovate the facility. Conceptual design was completed in March 2019.

- **Corporation Yard Roof and Electrical Upgrade:** The consultant has completed the needs assessment for the facility and developed a cost estimate to renovate the facility. Final design has been completed and designs will be submitted for permit in June 2019.

- **Marina Corporation Yard Electrical Upgrade:** The consultant has completed the needs assessment for the facility and developed a cost estimate to renovate the facility. The project is in the design phase and is almost complete. The final design is expected in July 2019.

- **Public Safety Building Mechanical and HVAC Efficiency Improvements:** Coordination with IT to develop the scope has been completed. A consultant was selected to perform a feasibility study by August 2019.
• **Aquatic Park Tide Tubes**: Staff has entered into a contract with an Engineering consultant. Work underway to include cleaning, inspection, environmental permits/clearance, and construction documents.

• **Berkeley Municipal Pier Planning and Design**: Draft pier study and waterfront ferry study is complete. Staff developed an MOU with the Water Emergency Transport Authority (WETA) to coordinate scope and secure additional funding to include a land-side study of ferry service to the Berkeley Marina for possible service to the waterfront. The MOU was approved by Council on March 12, 2019 and by the WETA Board on May 9, 2019.

• **Rose Garden Repair of Erosion**: Staff is processing environmental permits. Construction is anticipated to start in the spring of 2020, pending receipts of environmental permits.

• **Rose Garden Pathways, Tennis Courts, and Pergola**: Coordination with the drainage project and Landmark Preservation Commission subcommittee is ongoing. Designs have been submitted for permit and construction is anticipated to begin in the summer of 2019. Work for the pathways and tennis courts has been bundled with Phase 2 of the Pergola Replacement and ADA renovation project, funded by Parks Tax and the Capital Improvement Fund, to leverage these other funding sources, combine design effort, and consolidate construction time and park closures.

• **Citywide Irrigation System**: Testing at pilot sites was successful and full implementation is anticipated in the summer of 2019.

• **Grove Park Field and Restroom Renovation**: A contract with an On-Call Landscape Architect was executed and survey and design is underway. A second public meeting will be scheduled after initial design is complete.

• **George Florence Park Play Equipment Upgrade**: Two public meetings have been held and staff is proceeding with the preferred conceptual plan. Construction documents have been submitted for permit and are in review. Construction is anticipated to start in the fall of 2019.

• **San Pablo Park Play Equipment Upgrade and San Pablo Park Tennis Courts Renovation**: Staff have combined these projects to leverage the design process and consolidate construction timelines. First public meeting was held in 2018, and the second public meeting to present design options
and solicit feedback was held on April 13, 2019. Staff is proceeding with the preferred conceptual plans to develop the design. Construction is anticipated to start in spring 2020.

**Streets and Green Infrastructure**

- **King School Park Green Infrastructure**: Project is not feasible. Funding reallocation process is in progress.

- **Adeline Street and Hearst Avenue**: Projects were advertised for bid in March 2019. A contractor has been selected and construction is planned for August 2019.

- **Monterey Avenue and Ward Street**: Design is underway. Staff is evaluating options for green infrastructure on Ward Street.

- **2nd Street, Hopkins Street, and Bancroft Way**: Design for 2nd Street is underway. A corridor study is planned for Hopkins Street. Bancroft Way work schedule is being coordinated with PG&E’s pending underground cable replacement project.

- **University Avenue (West Frontage Road to Marina Boulevard), Marina Boulevard and Spinnaker Way**: Conceptual design and public process for all three streets have been completed. Final design is in progress. Construction is anticipated to begin March 2020.
