Subject: Referral Response: Issue a Request for Information to Explore Grant Writing Services from Specialized Municipal Grant-Writing Firms, and Report Back to Council

INTRODUCTION
This report responds to the referral sponsored by Councilmembers Hahn, Harrison, Davila and Bartlett to issue a Request for Information to explore grant writing services from specialized municipal grant-writing firms, and report back to Council that originally appeared on the agenda of the October 3, 2017 Council meeting.

SUMMARY
Request for Information (RFI), Specification No. 18-11201, Grant Writing and Related Services (Attachment 1), was released to the public in the spring of 2018 with the intent to identify qualified firms or individuals with expertise researching, identifying, applying for and obtaining grants on behalf of municipal entities.

The key points of the RFI were to: 1) communicate to grant writing firms that the City is seeking to expand its ability to initiate and deliver innovative programs by seeking out public and private grant funding; 2) use contracted services to augment existing internal grant application activities; and 3) leverage the resources and successes of firms that have developed specific competencies in providing grant sourcing and proposal development services to municipal clients.

Respondents were asked to provide information to demonstrate their ability to provide the following services:

- Funding Needs Analysis  
- Grant Funding Research  
- On-Call Grant Research  
- Grant Proposal Development

- Legislative Advocacy  
- Presentations and Meeting Attendance  
- Monthly Reporting
The RFI requested each respondent to submit standard and preferred fee structures to provide the City with insight into compensation options available in the market.

CURRENT SITUATION AND ITS EFFECTS
Currently, grant writing and application responsibilities are distributed across departments, which independently seek new grant opportunities and submit applications. While the City does receive awards, the application process can be time consuming for staff. For Berkeley to maximize its potential to gain resources from every possible source, it is imperative that the City apply for as many funding opportunities as possible. Increased revenue obtained through successful grant applications would allow the City to pilot new ideas, serve the community in a more robust fashion, and demonstrate to Berkeley residents the City’s commitment to seeking public and private funding that may be available.

Planning for the release of the RFI began with City staff contacting 14 firms with presence in California and a focus on serving municipal clients, as indicated on websites, in other published materials, or by direct conversation. The 14 firms were made aware of the release of RFI #18-11201 and invited to participate. The RFI was posted on the City’s website and at the kiosk in front of Old City Hall. Twelve of the 14 firms submitted responses to the RFI. The response pool represented a broad mix, from national corporations to niche players, for example having an environmental focus. Less than half of the responses provided all the information requested in the RFI.

Three of the 12 responses were comprehensive and provided information useful in assessing both the availability of grant-writing firms with a depth of experience and significant track-record (see Attachment 2 for a representative listing of grants secured by the 3 firms – California Consulting, Grant Management Associates and Glen Price Group) obtaining grant dollars in California for a wide variety of city, county and state projects, as well as service delivery methods and typical fee structures.

Fee Structures varied by respondent with 11 out of 12 falling into at least one of the following categories:

- Hourly rate per hour for all work performed by each resource
- Monthly, flat fee retainer with additional work at hourly rate per hour
- Fixed monthly fee when working on a particular grant proposal

Only one response included a Fee Structure that was based on a percentage of dollars awarded.

BACKGROUND
Currently, grant writing and application responsibilities are distributed across departments, which independently seek new grant opportunities and submit applications. While the City does receive awards, the application process can be time
consuming for Staff. For Berkeley to maximize its potential to gain resources from every possible source, it is imperative that the City apply for as many funding opportunities as possible. Increasing revenues obtained through successful grant applications would allow the City to pilot new ideas, serve the community in a more robust fashion and demonstrate to Berkeley residents the City’s commitment to seeking public and private funding that may be available.

ENVIRONMENTAL SUSTAINABILITY
Not applicable.

POSSIBLE FUTURE ACTION
Information contained in the responses to RFI #18-11201 may be used to inform the scope of work, evaluation criteria and pricing arrangement, as well as outreach efforts for a future request for proposals for comprehensive grant research services issued by the City.

FISCAL IMPACTS OF POSSIBLE FUTURE ACTION
Increased revenue obtained through successful grant applications.

I. SUMMARY

Berkeley is an innovative city, pursuing ambitious programs and initiatives with the vigor and vision of a much larger city. Implementing innovative initiatives requires a significant investment of City resources and staff time. To support these efforts and increase revenue, the City currently applies for private, federal, state, and county grants.

Currently, grant writing and application responsibilities are distributed across departments, which independently seek new grant opportunities and submit applications. While the City does receive awards, the application process can be time consuming for staff. For Berkeley to maximize its potential to gain resources for every possible source, it is imperative that the City apply for as many funding opportunities as possible. Increased revenue obtained through successful grant applications would allow the City to pilot new ideas, serve the community in a more robust fashion, and demonstrate to Berkeley residents the City’s commitment to seeking public and private funding that may be available.

Subject: Request for Information Regarding Grant Writing Services from Specialized Grant Writing Firms

RECOMMENDATION
Refer to the City Manager to issue a request for information to explore grant writing services from specialized municipal grant-writing firms, and report back to Council.

FINANCIAL IMPLICATIONS
Staff time to issue the request, review responses, and report to Council.

BACKGROUND
Berkeley is an innovative City, pursuing ambitious programs and initiatives with the vigor and vision of a much larger City. Implementing innovative initiatives requires a significant investment of City resources and staff time. To support these efforts and increase revenues, the City currently applies for private, federal, state, and county grants.

Currently, grant writing and application responsibilities are distributed across departments, which independently seek new grant opportunities and submit applications. While the City does receive awards, the application process can be time consuming for Staff. For Berkeley to maximize its potential to gain resources from every possible source, it is imperative that the City apply for as many funding opportunities as possible. Increased revenue obtained through successful grant applications would allow the City to pilot new ideas, serve the community in a more robust fashion, and demonstrate to Berkeley residents the City’s commitment to seeking public and private funding that may be available.

To help accomplish this goal, this item recommends that the City Manager issue a Request for Information to explore opportunities to obtain grant writing services from a grant-writing firm specializing in municipal grants. A number of specialized firms exist that consolidate information about grant opportunities and can support the writing of grants. An example is included as Attachment 1. Engaging a firm focused on identifying and applying for grant opportunities may yield a higher success rate than the City currently obtains. The purpose of this request for information would be to explore many different firms and gain information about expertise, services, pricing, and other details,
allowing the City Manager and Council to assess the feasibility and utility of contracting for such services.

ENVIRONMENTAL SUSTAINABILITY
This recommendation supports Berkeley’s environmental sustainability goals.

The goal of the Smart Reentry Program is to support jurisdictions to develop and implement comprehensive and collaborative strategies that address the challenges posed by reentry to increase public safety and reduce recidivism for individuals reentering communities from incarceration who are at medium to high risk for recidivating. The reentry plan should reflect both specific and ongoing pre-release and post-release needs, and a strategy for ensuring that these needs are met throughout the duration of the reentry process.

BJA’s “Smart Suite” of programs invests in the development of practitioner-researcher partnerships that use data, evidence, and innovation to create strategies and interventions that are effective and economical. This data-driven approach enables jurisdictions to understand the full nature and extent of the crime challenges they are facing and to direct resources to the highest priorities. The Smart Suite of programs, which includes Project Safe Neighborhoods (PSN), represents a strategic approach that brings more “science” into criminal justice operations by leveraging innovative applications of analysis, technology, and evidence-based practices with the goal of improving performance and effectiveness while containing costs. PSN is designed to create safer neighborhoods through a sustained reduction in gang violence and gun crime. The program’s effectiveness is based on the cooperation and partnerships of local, state, and federal agencies engaged in a unified approach led by the U.S. Attorney (USA) in each district. The USA is responsible for establishing a collaborative PSN team of federal, state, and local law enforcement and other community members to implement gang violence and gun crime enforcement, intervention, outreach, and prevention initiatives within the district. Through the PSN team, the USA will implement the five design features of PSN—partnerships, strategic planning, training, outreach, and accountability—to address specific gun crime and gang violence, in the most violent neighborhoods.
