# What do I do if my child tests positive for COVID-19? (applies to VACCINATED and UNVACCINATED children)

#### Comfort

- Reassure your child
- Explain as appropriate for your child's stage of development
- Notify your child's health care provider and your child's school about the test results

#### Isolate

 Your child must follow Isolation Instructions for at least 10 days

#### Monitor

**Monitor** your child for symptoms of COVID-19:

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

### If child with

symptoms

### Isolation with Symptoms

If your child has symptoms: they must follow Isolation Instructions for at least 10 days from when the symptoms started

### Symptoms A

Your child can go back to school when:

Return to School -

- (1) they have completed **Isolation**; **AND**
- (2) they have had no fever for at least 24 hours (without medicine); AND
- (3) they feel better.

#### If child has <u>no</u> symptoms

## Isolation with No Symptoms

If your child does not have symptoms: they must follow Isolation Instructions for at least 10 days from when their positive test was collected

### Return to School • No Symptoms ✓

Your child can go back to school when: they have completed **Isolation**

Where can my child get tested?

Testing can be done by your child's health care

provider or at a FREE COVID-19 test site.

▲ Check school/program policy before sending your child back.
