

Measure T1 Bond Update

TOM BATES REGIONAL SPORTS COMPLEX FIELDHOUSE BUILDING

PROJECT DESCRIPTION

The Tom Bates Regional Sports Complex serves approximately 19,000 youth and adults annually. The complex does not have a permanent meeting space or restroom at the site. The preliminary vision of the fieldhouse building consists of a restroom, meeting room, and a storage area, with a priority on ease of access from the fields, minimal impact to parking, and good security.

PROJECT UPDATE

November, 2020

Conceptual design is now complete. Remaining funds will be allocated to extend the sewer line during ACTC's Gilman Street at I-80 Interchange Project.

For more detailed information on the fieldhouse project, visit the project information page at www.CityOfBerkeley.info/TomBatesComplexFieldhouse.aspx
