FIELD USERS MEETING

Tuesday, April 17, 2018, 8pm- 9pm, Frances Albrier Center

Proposed Fieldhouse Project

With the completion of the synthetic turf replacement project, the City project team is ready to begin the next improvement project at Gilman Fields: **PLANNING AND DESIGN OF THE FIELDHOUSE.**

The preliminary vision of the fieldhouse building consists of a restroom, a meeting room, and a storage area, with a priority on ease of access from the fields, minimal impact to parking, and good security.

You are invited to join us at this spacing planning meeting to provide your input on the functionality, siting, and space needs of the fieldhouse building.

The City project team will evaluate your input, and at a future meeting, will discuss options for the Fieldhouse that would best meet community needs and project constraints prior to the development of final design.

MEETING INFORMATION

<u>Time</u>	<u>Location</u>
Tuesday, April 17, 2018 8:00 p.m. to 9:00 p.m.	Frances Albrier Community Center Auditorium, 2800 Park Street, Berkeley
