

Special Meeting of the Berkeley Cannabis Commission

Cannabis Equity Program: Public Comment

The City of Berkeley is developing a Cannabis Equity Program in order to select a seventh cannabis Retailer. The overall goal of this program is to lower barriers to entry into the cannabis industry for members of communities that were negatively impacted by the War on Drugs.

City staff is currently drafting proposals of what the Cannabis Equity Program would look like. Key features include:

- Eligibility requirements for candidates
- Selection process for the final candidate
- Actions to assist the business success of the final candidate

We would like your ideas on this program as a member of the Berkeley community and a possible future applicant. The feedback from this meeting will further refine how the program will work.
