Dear Charles Enchill and Esteemed Committee Members,

Thank you for your time in reviewing this material, as we apply for a Structural Alterations Review on 1770 La Loma for the following modifications:

1. A two story rear addition allowing the extension of the first and second floor areas, to accommodate quiet room study areas for students in an existing historic boarding house.

Please consider this missive document to be an Applicant's Statement of declaration for this proposal. The following pages have photos of the proposed chimney's in question. Thank you for your time in review.

Sincerely,
Kristin Personett
