LAND USE PLANNING

To Whom it May Concern:

I strongly oppose the use permit (#12-10000058) which would allow AT&T wireless to install twelve panel antennas and associated equipment at 2095 Rose Street. I do not wish to have increased exposure to these electromagnetic frequencies. Please represent me and vote NO on this permit.

Thank you,

To Whom it May Concern:

I strongly oppose the use permit (#12-10000058) which would allow AT&T wireless to install twelve panel antennas and associated equipment at 2095 Rose Street. The purposed new cell site is directly across the street from my place of employment. I believe there is evidence showing health risks associated with the radiation produced by these antennas. I do not wish to have increased daily exposure to these electromagnetic frequencies. Please represent me and vote NO on this permit.

Thank you,
