Land Use Planning Division

## MEMORANDUM

DATE: December 5, 2014

TO: Members of the Zoning Adjustments Board

FROM: Aaron Sage, Senior Planner

SUBJECT: Additional Communications Regarding 2211 Harold Way

Staff is forwarding the attached communications for the 2211 Harold Way project to the ZAB, in addition to communications specifically regarding the community benefits package, which are attached to that agenda item. The attached communications are either comments on the Draft EIR (DEIR), or general comments not specifically pertaining to the community benefits package. In some cases, commenters on the DEIR have requested that their comments be forwarded to the ZAB for the December 11 hearing, even though all DEIR comments will be provided to the ZAB again as part of the Response to Comments (RTC) document. In other cases, EIR comment letters were addressed to the ZAB, but it was not clear whether they intended for them to be provided to the ZAB immediately or with the RTC document. Staff has decided to err on the side of caution and send the ZAB all comments received since the last ZAB meeting hearing.
