**Subject:** 1900 Fourth Street

Dear Mr. Planning Director:

I was first informed today about a so-called 'public meeting' pertaining to a proposal to develop 1900 Fourth Street (Spenger's parking lot) which was reputedly held in late March 2015. I would have attended had anyone provided me with notice of the meeting. I check Berkeleyside almost daily and to the best of my knowledge there was no notice or news account of this public meeting published. I am informed and believe that many local people and businesses have requested that the developer provide the community with a genuine forum that truly informs the public about the nature and scope of this large-scale development proposal.

I want to add my name to those requesting your office to insist that a more properly noticed and conducted public meeting regarding this proposal be conducted by the developer.

Thank you for your anticipated assistance with regard to this request.

EDWARD C. MOORE, 2436 Ninth Street, Berkeley. CA 94710.
