**Subject:** 2190 Shattuck

Dear Clerk, I can't email Anne Burns of the Design Review Committee. So please forward this email to her. Thank you.

Anne Burns: I can't make the DRC meeting this Thurs. so please distribute my comment to Committee members.  
Thank you. Maris Arnold, 510-843-3236 , 94703

The DRC is uglifying Berkeley.

Look at the monsterous corner of University & Milvia, with the Golden Bear Bldg. & the hulking Stonefire forming a sky, & light oppressive block. Then there's the tin can-looking apt. bulding at Univ. & Action.

Now you have to decide whether to block the Campanille view forever.

Please DON'T APPROVE 2190 SHATTUCK . Please preserve forever a landmark treasure that makes Berkeley so special & beautiful. .

Sadly, I know how you're going to vote. You've got yr marching orders.

Thank you for your attention to my concern.

P.S. The Soviet Realism architecture of the Parker Equinox would have been lightened if only the builders had added "Roll" to its name.
