**Subject:** For PRA subcommittee on controlled equipment ordinance

Dear Kathy,

Attached is one more pair of documents for members of the subcommittee on Acquisition and Use of Controlled Equipment Ordinance. A subcommittee member asked for images of the equipment listed in the ordinance.

The two attached documents are (1) a number of images of equipment listed in the proposed ordinance (some of which BPD has and some which it does not), and (2) a portion of an Oakland Police Department presentation (obtained through a Publics Records Act request) on Special Impact Munitions and their launchers that illustrates types of launchers. Oakland PD sometimes deploys in Berkeley during mutual aid operations.

Thanks and best,  
John Lindsay-Poland
