1. **Discuss Public Works Commission work plan for 2017 and subcommittee assignments:** Schueler was appointed the new T1 Subcommittee Chair and it was noted that commissioners Henry, Yep and Freiberg are the remaining members of the T1 Subcommittee. Due to the current vacancies on the PWC, it was also noted that subcommittee meetings must be limited to 3 commissioners to avoid a quorum.

(M/S/C, Schueler/Yep, 6-0-0)

Schedule

- *February 2nd PWC Meeting:* Present years 2018-2019 of the 5 Year Plan and Green Infrastructure (GI) and provide information in the same format as prior years. (tabular and map format)

Paving Plan Priorities

- On November 19, 2013, the City Council adopted the full 2014-2018 Five Year Paving Plan that represented the accelerated paving program supported by Measure M funds. It is the goal of the current paving plan to finish all the streets listed in that plan.
- On March 8, 2016 the City Council approved funding for the first 2 years of the 2016-2020 Five Year Paving Plan. It is the goal of the current paving plan to finish all the streets listed in years 2016 and 2017 of that plan.
- Pave streets on Panoramic Hill after EBMUD completes pipeline replacement work.

- Prioritize streets with location specific grant funding sources including Hearst and Shattuck.
- We will seek authorization of the 5 year plan, with approved funding for years 18 & 19. Years 20 through 22 will be placeholders pending available funding.

B. Post presentation, a lively discussion ensued amongst the commissioners. Key points summarized below with attribution.

- Consider incorporating regular inspection of new pavement treatments into pavement program work plan to better inform future decisions. (Yep)
- Like to track funding source, Measure M, Measure T, and baseline linked to projects completed. (Yep)
- Staff should try to provide Paving Subcommittee 2 weeks to review material before the full PWC meeting. (Dominguez)
- Lower University should not be reconstructed because it will likely be inundated by sea level rise within the design life of the improvements. (Schueler)
- Want to see comparison of what was proposed in earlier paving plans versus what has been completed. (Many)
- Want to see PCI analytics for proposed plan. (Many)
- Want to see implementation of new technology, more durable pavements like concrete and pavers, and don't want to finance projects that won't last as long as the debt service. (Many)
- Want to see Green Infrastructure in roadways, like permeable pavers, to provide storage, filtration and road surface. (Kelley)
- Bancroft was listed as concrete pavement in 2016-2020 5 Year Paving Plan. Need to know why it was changed to asphalt pavement. Would like for staff to discuss this with Paving Subcommittee. (many)
- In general the proposed paving plan preparation schedule looks acceptable. (many)
