 TDD: (510) 981-6903

Resident or Property Owner
 House # Street Name
 Berkeley, CA Zip Code

**PUBLIC NOTICE
 SANITARY SEWER REHABILITATION PROJECT**

The City of Berkeley, Public Works Department, will be rehabilitating the sanitary sewer system in your neighborhood.

LOCATION: 500, 900, 1000, and 1100 Block of Cragmont Avenue, 800 Block of Spruce Street, 100 Block of Alamo Avenue, 900 of Wildcat Canyon Road, 1000 Block of Park Hills, 800 Block of Woodmont Avenue, 1100 Block of Woodside Road, 1500 Block of Oxford Street, and 155 Tamalpais Path. See location map inside.

TIMELINE: Construction is expected to begin in April 2020 and takes about three months to complete depending on weather or unforeseen conditions. Construction in your immediate vicinity may not extend for this entire period. Standard work hours are 7:30 a.m. - 5:00 p.m., Monday - Friday. Schedule updates will be available on the City's website at: [www.cityofberkeley.info/Public_Works/Bids - Contracts/Construction_Updates.aspx](http://www.cityofberkeley.info/Public_Works/Bids_-_Contracts/Construction_Updates.aspx)

POSSIBLE INCONVENIENCES: Traffic will be delayed at the work site and street closures may be necessary but will not exceed 12 hours at a time. "No Parking" signs will be posted along the street 3 days in advance and will be enforced by the Police Department. Please see the posted signs for exact hours and locations as they may vary according to scheduled tasks. All other usual parking restrictions, including no parking for street cleaning, will still be in effect. Access to private driveways may be prohibited during some operations. Emergency vehicle access will be maintained at all times.

No significant interruptions in sewer, water, electric, gas, or phone services are anticipated, though minimizing your water usage during this time is recommended.

PROPERTY OWNER AND RESIDENT ACTIONS: During the project, the City will replace the sanitary sewer mains and lower laterals. Property owners are encouraged to obtain a quote from the Contractor or any other contractors of your choice, replace their private lateral (upper lateral), and obtain a private sewer lateral certificate upon completion.

- Sensitive to Petroleum: Be aware that asphalt will be used in this project
- Avoiding Oil Spray: Park your vehicles outside of the construction area
- Safety: Keep children and pets away from work area
