

**PUBLIC NOTICE FOR SACRAMENTO COMPLETE STREETS**

The City of Berkeley, Public Works Department, will be building infrastructure in your neighborhood that is intended to improve safety. The work consists of constructing sidewalk bulb-outs and curb ramps at the following street intersections of Sacramento Street: Virginia Street, Delaware Street, University Avenue, and Addison Street. The project also includes the following work at the Virginia Street intersection: a new traffic signal, removal and replacement of roadway pavement, a new center median that will prohibit the east-west through movement of motor vehicles, and a new bus bulb at the southwest corner which will serve southbound buses. A new bus bulb will also be built at the northeast corner of the University Avenue intersection which will serve westbound buses. Signal timing work will be performed at the Delaware intersection to provide dedicated time for pedestrians and bicyclists crossing Sacramento Street and at the University intersection to provide dedicated time for left-turning vehicles in all directions.

**LOCATION:** Sacramento Street at the following intersections: Virginia Street, Delaware Street, University Avenue, and Addison Street. See location map inside.

**TIMELINE:** Construction is expected to begin in July 2020 and will take approximately 9 months to complete, depending on weather and/or unforeseen conditions. Standard work hours are 7:30 a.m. - 5:00 p.m., Monday - Friday. Schedule updates will be available on the City's website at: [www.cityofberkeley.info/Public\\_Works/Bids - Contracts/Construction\\_Updates.aspx](http://www.cityofberkeley.info/Public_Works/Bids_-_Contracts/Construction_Updates.aspx)

**POSSIBLE INCONVENIENCES:** Traffic will be delayed at the work site and street closures may be necessary. Please obey all temporary traffic control devices and signage around the work site. "No Parking" signs will be posted along the street 3 days in advance and will be enforced by the Police Department. Please see the posted signs for exact hours and locations as they may vary according to scheduled tasks. All other usual parking restrictions, including no parking for street cleaning, will remain in effect. Access to private driveways may be prohibited during some operations. Emergency vehicle access will be maintained at all times.

**PROPERTY OWNER AND RESIDENT ACTIONS:**

- Sensitive to Petroleum: Be aware that asphalt will be used in this project
- Avoiding Oil Spray: Park your vehicles outside of the construction area. Oil and asphalt are not easily removed from shoes, floors and rugs
- Safety: Keep children and pets away from work area
- Property owners are responsible for trimming their trees and vegetation growing into the roadway, and for installation and maintenance of water barriers (against runoff) with a minimum height of 6 inches.
- Any permits issued for use of the right-of-way are temporarily suspended, in accordance with BMC 16.16.050, while the work takes place. Contact City for coordination of critical work.
